Submission for OMB Review: Comment Request

The Department of Labor (DOL) has submitted the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. chapter 35). A copy of this ICR, with applicable supporting documentation, may be obtained by contacting the Department of Labor (DOL). To obtain documentation, contact Darrin King on 202–693–4129 (this is not a toll-free number) or e-mail: king.darrin@dol.gov.

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Mine Safety and Health Administration (MSHA), Office of Management and Budget, Room 10235, Washington, DC 20503, 202–395–7316 (this is not a toll-free number), within 30 days from the date of this publication in the Federal Register.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Mine Safety and Health Administration.

Type of Review: Extension of currently approved collection.

Title: Application for a Permit to Fire More than 20 Boreholes for the Use of Nonpermissible Blasting Units, Explosive, and Shot-firing Units.

OMB Number: 1219–0025.

Frequency: On occasion.

Type of Response: Recordkeeping; Reporting; and Third party disclosure.

Affected Public: Business or other for-profit.

Number of Respondents: 48.

Number of Annual Responses: 105.

Estimated Time Per Response: 1 hour to prepare an application for a permit and 20 minutes to post a conspicuous warning notice at the entrance of an area affected by a misfire.

Total Burden Hours: 67.

Total Annualized capital/startup costs: $0.

Total Annual Costs (operating/maintaining systems or purchasing services): $588.

Description: Title 30 CFR 75.1321 outlines the procedures by which a permit may be issued for the firing of more than 20 boreholes and/or the use of nonpermissible items. The posting of danger/warning signs at entrances to affected areas with a warning to prohibit entry. Title 30 CFR 77.1900–1 outlines the procedures by which a coal mine operator may apply for a permit to use nonpermissible explosives and/or shot-firing units in the blasting of rock while sinking shafts or slopes for underground coal mines. These permits inform mine management and the miners of the steps to be employed to protect the safety of any person exposed to such blasting while using nonpermissible items. The posting of danger/warning signs at entrances to locations where an unsatisfactory blast hole or round remains indisposed is a safety precaution predating the Coal Mine Safety and Health Act.

Description: The basic purpose of the information collection requirements in 29 CFR 1910.1001 (the Standard) is to document that employers in general industry are providing their employees with protection from hazardous asbestos exposure. Asbestos exposure results in asbestosis, a scarring of the lung tissue; lung cancer; mesothelioma; and gastrointestinal cancer. The Standard permits employers, employees and their designated representatives, OSHA, and other specified parties to determine the effectiveness of an employer’s asbestos-control program. Accordingly, the requirements ensure that employees exposed to asbestos receive all of the protection afforded by the Standard.
