who use any vehicle to transport a migrant or seasonal agricultural worker, ensure that such vehicle conforms to vehicle State safety standards prescribed by MSPA and other applicable Federal and State safety standards. The use of forms WH–514 and WH–514a enable an applicant to verify to the Department or appropriate State agency that the vehicles used to transport such workers meet these safety standards. The WH–514 is used to verify that Department of Transportation safety standards are met for all vehicles other than passenger automobiles or station wagons, and the WH–514a is used to verify that Department of Labor safety standards are met for all vehicles including passenger automobiles or station wagons.
