such approach satisfies the
assessment of pediatric medical devices.

II. Significance of Guidance

On October 26, 2002, the Medical Device User Fee and Modernization Act of 2002 (MDUFMA), Public Law 107–250, was signed into law. Among other things, MDUFMA amends the Federal Food, Drug, and Cosmetic Act (the act) by adding several new provisions concerning devices intended for pediatric use. MDUFMA requires FDA, within 270 days of enactment, to issue guidance on the safety and effectiveness information needed to support marketing of pediatric devices and on measures to be used to help protect this vulnerable patient population during the course of clinical trials involving such products.

On February 4, 2003, FDA published a Federal Register document entitled, “Medical Device User Fee and Modernization Act of 2003, Establishment of a Public Docket” (68 FR 5643) (hereinafter referred to as the MDUFMA Docket). In this Federal Register document, the agency identified several statutory provisions for which FDA was particularly interested in receiving stakeholder input, and this pediatric provision was one of them. No comments were submitted to the MDUFMA Docket on this topic. In the Federal Register of July 24, 2003 (68 FR 43729), FDA announced the availability of a draft of this guidance document and invited interested persons to comment by October 22, 2003. Three comments were submitted in response to the draft guidance, and the agency considered the comments while finalizing the document.

II. Significance of Guidance

This guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The guidance represents the agency’s current thinking on premarket assessment of pediatric medical devices. It does not create or confer any rights for or on any person and does not operate to bind FDA on the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statute and regulations.
