

which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Availability of Additional Information

Additional information about the project is available from the Commission(s) Office of External Affairs at 1-866-208-FERC (3372) or on the FERC Internet Web site (<http://www.ferc.gov>). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" (*i.e.*, CP04-223-000), and follow the instructions. Searches may also be done using the phrase "KeySpan LNG Facility Upgrade Project" in the "Text Search" field. For assistance with access to eLibrary, the helpline can be reached at 1-866-208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Internet website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

In addition, the FERC now offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. To register for this service, go to <http://www.ferc.gov/esubscribenow.htm>.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PL04-9-000]

Acquisition and Disposition of Merchant Generation Assets by Public Utilities; Notice of Technical Conference

May 11, 2004.

1. Take notice that a technical conference will be held on acquisitions and dispositions by public utilities on June 10, 2004, from 1 a.m. to 4 p.m. (EST), in the Commission Meeting Room at the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC. Members of the Commission will attend the conference. An agenda will be issued at a later time.

The topic of the conference will be issues associated with public utilities' acquisition and disposition of merchant generation assets, including the implications for the competitive landscape in general and for a region's wholesale competition in particular. The conference will discuss proposals for addressing these issues and concerns.

2. The conference will be transcribed. Those interested in acquiring the transcript should contact Ace Reporters at 202-347-3700 or 800-336-6646. Transcripts will be placed in the public record ten days after the Commission receives the transcripts. Additionally, Capitol Connection offers the opportunity for remote listening and viewing of the conference. It is available for a fee, live over the Internet, by phone or via satellite. Persons interested in receiving the broadcast, or who need information on making arrangements, should contact David Reininger or Julia Morelli at Capitol Connection (703-993-3100) as soon as possible or visit the Capitol Connection Web site at <http://www.capitolconnection.org> and click on "FERC."

3. For more information about the conference, please contact Mary Beth Tighe at 202-502-6452 or mary.beth.tighe@ferc.gov.

4. A supplemental notice of this conference will be issued later that will provide details of the conference, including the panelists.

Magalie R. Salas,

Secretary.

Federal Energy Regulatory Commission

[Docket No. PL04-6-000]

Solicitation Processes for Public Utilities; Notice of Technical Conference

May 11, 2004.

1. Take notice that a technical conference will be held on the solicitation processes for public utilities on June 10, 2004, from 9:30 a.m. to 12 p.m. (EST), in the Commission Meeting Room at the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC. Members of the Commission will attend the conference. An agenda will be issued at a later time.

2. The topic of the conference will be issues associated with solicitation processes, including solicitations

whereby public utilities sell to their affiliates. The conference will address proposals for best practice competitive solicitation methods or principles that could be used to ensure that transactions filed with the Commission for approval are the result of an open and fair process.

3. The conference will be transcribed. Those interested in acquiring the transcript should contact Ace Reporters at 202-347-3700 or 800-336-6646. Transcripts will be placed in the public record ten days after the Commission receives the transcripts. Additionally, Capitol Connection offers the opportunity for remote listening and viewing of the conference. It is available for a fee, live over the Internet, by phone or via satellite. Persons interested in receiving the broadcast, or who need information on making arrangements, should contact David Reininger or Julia Morelli at Capitol Connection (703-993-3100) as soon as possible or visit the Capitol Connection website at <http://www.capitolconnection.org> and click on "FERC."

4. For more information about the conference, please contact Mary Beth Tighe at 202-502-6452 or mary.beth.tighe@ferc.gov.

5. A supplemental notice of this conference will be issued later that will provide details of the conference, including the panelists.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[OAR-2004-0051; FRL-7662-6]

Agency Information Collection Activities: Proposed Collection; Comment Request; Recordkeeping and Reporting Requirements for Diesel Fuel Sold in 2001 and Later Years and for Tax-Exempt (Dyed) Diesel Fuel, EPA ICR Number 1718.06, OMB Control Number 2060-0308

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB). This is a request to renew two existing and

related ICRs and combine them into one ICR renewal. These ICRs are scheduled to expire on September 30, 2004. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before July 16, 2004.

ADDRESSES: Submit your comments, referencing docket ID number OAR-2004-0051, to EPA online using EDOCKET (our preferred method), by e-mail to a-and-r-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Mail Code: 6102T, Washington, DC 20460.

Instructions for using EDOCKET are contained in the section entitled **SUPPLEMENTARY INFORMATION**, below.

FOR FURTHER INFORMATION CONTACT: Anne Pastorkovich, Attorney/Advisor, Transportation and Regional Programs Division, Office of Transportation and Air Quality, telephone number: (202) 343-9623, fax number: (202) 343-2801, e-mail address: pastorkovich.anne-marie@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has established a public docket for this ICR under Docket ID number OAR-2004-0051, which is available for public viewing at the Air Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air Docket is (202) 566-1741. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to obtain a copy of the draft information collection, submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA within 60 days of this notice. EPA's policy is that public comments, whether submitted electronically or on paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public

disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Affected entities: Entities potentially affected by this action are refiners, importers, pipelines, petroleum marketers and other distributors of diesel fuel, terminal, fuel oil dealers, fuel additive manufacturers, and petroleum retailers and wholesale purchaser-consumers.

Title: Recordkeeping and Reporting Requirements for the Fuel Quality Regulations for Diesel Fuel Sold in 2001 and Later Years; and for Tax-Exempt (Dyed) Diesel Fuel.

Abstract: This renewal includes recordkeeping and reporting under two existing and related ICRs that will expire on September 30, 2004. These are the fuel quality regulations for diesel fuel sold in 2001 and later years (covered by current EPA ICR No. 1718.04) and the recordkeeping and reporting requirements related to tax-exempt (dyed) diesel fuel (covered by current EPA ICR No. 1718.03). These are described in summary in the following paragraphs and in detail in the draft Supporting Statement, which has been placed in the public docket.

Summary of Recordkeeping and Reporting Related to the Fuel Quality Regulations for Diesel Fuel Sold in 2001 and Later Years

The pollution emitted by diesel engines contributes greatly to our nation's continuing air quality problems. On January 18, 2001, EPA published a final rule that would establish standards for heavy-duty engines and vehicles and for highway diesel sulfur control. New emissions standards for these engines and vehicles will apply starting with model year 2007. Since the new technology developed will require low sulfur diesel fuel (15 parts per million sulfur or less), the regulations require the availability of this fuel starting by no later than 2006, with all highway diesel fuel

required to meet the 15 parts per million standard by 2010.¹

The information under this ICR will be collected by EPA's Transportation and Regional Programs Division, Office of Transportation and Air Quality, Office of Air and Radiation (OAR), and by EPA's Air Enforcement Division, Office of Regulatory Enforcement, Office of Enforcement and Compliance Assurance (OECA). The information collected will be used by EPA to evaluate compliance with diesel sulfur control requirements under the diesel rule. This oversight by EPA is necessary to ensure attainment of the air quality goals of the diesel program.

The scope of the recordkeeping and reporting requirements for each type of party (and therefore the cost to that party), reflects the party's opportunity to create, control or alter the sulfur content of diesel fuel. As a result, refiners and importers will generally have more requirements than parties downstream from the diesel production or import point. Refiners and importers are required to register with EPA and to submit annual pre-compliance reports on June 1st of 2003, 2004, and 2005. Those refiners and importers who generate credits must submit credit-related annual reports starting in 2006 or the first year credits are generated (whichever is earlier). All refiners and importers must submit annual reports including compliance information for 2006 through 2010. EPA has made every effort to minimize registration and reporting burdens and to ensure that parties do not have to submit duplicate information. For example, refiners and importers who have already registered with EPA for compliance with other fuels programs are not required to re-register for this program.

Parties are required to generate and retain product transfer documents, which are documents normally and customarily generated in the course of business. These product transfer documents typically use simplified, software-generated product codes. Product transfer documents must be retained for five years.

Regulated parties are required to retain records of any quality assurance testing they may perform on diesel fuel and such records would be normally and customarily retained in the course of business.

A party may apply for relief from regulatory requirements under extreme and unforeseen circumstances (e.g. a

¹ See "Control of Air Pollution from New Motor Vehicles: Heavy-Duty Engine and Vehicle Standards and Highway Diesel Fuel Sulfur Control Requirements," 66 FR 5002 (January 18, 2001).

refinery fire or flood) or may apply for an exemption to conduct research and development activities. We expect few applications under these provisions. We have made every effort to ensure that the application process is simple and requires only necessary information to make a decision as to whether to grant or deny a request.

Summary of Recordkeeping and Reporting Related to the Dyeing of Tax-Exempt Diesel Fuel

Diesel fuel not intended for use in motor vehicles (off-road diesel fuel) is required to be dyed red in order to distinguish it from motor vehicle diesel fuel. The Internal Revenue Service requires that tax-exempt motor vehicle diesel fuel also be dyed red. To distinguish off-road diesel fuel from tax-exempt motor vehicle diesel fuel, parties in the fuel distribution system must refer to the product transfer document. Product transfer documents are normally and customarily generated in the course of business and typically use simplified, software generated codes. Product transfer documents must be retained for five years.²

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: It is estimated that there will be 420,685 reports, 39,575 burden hours, and total annual costs (labor, overhead and maintenance, and purchased services) of \$7,522,375. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a

Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. The estimated burden is explained in detail on pages 22–30 of the draft Supporting Statement, which has been placed in docket OAR–2004–0051 and which is available via the EDOCKET and at the address listed in the **ADDRESSES** section, above. Other helpful information, including the final Supporting Statements for the expiring ICR Nos. 1718.03 and 1718.04, have also been placed in the docket in order to assist the public in commenting on this renewal.

Dated: May 3, 2004.

Suzanne Rudzinski,

Director, Transportation and Regional Programs Division, Office of Transportation and Air Quality.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

[FRL–7662–7, Docket ID No. A–94–34]

Clean Air Act Advisory Committee: Notice Soliciting Interest in Participating on a Task Force on the Performance of the Title V Operating Permits Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Under the Federal Advisory Committee Act, 5 U.S.C. Appendix 2 (Pub. L. 92–463), EPA announces the formation of a work group to be known as the Title V Task Force. This task force will seek input from the public including industry, State, and local air pollution control agencies, and environmental interest groups, on the performance of the title V operating permits programs. The ultimate goal of the title V task force will be to draft a report for consideration of the Permitting/Toxics Subcommittee to the Clean Air Act Advisory Committee (CAAAC) to document how the title V

program is performing and what elements are working well and/or poorly. The draft report may include suggestions on how to improve the program.

Through this notice, EPA solicits individuals to participate as members of the task force. We are looking for 12 to 24 individuals willing to attend at least three all-day meetings throughout the United States, participate in a number of conference calls, and participate in drafting the report to the subcommittee.

In addition, we are announcing three all-day public meetings of the task force. The first meeting will be held in late June in the Washington, DC, area. The second meeting will probably be held in mid-September in the Chicago area. The third meeting will likely be held in late January 2005 in a western location such as Phoenix, Arizona.

FOR FURTHER INFORMATION CONTACT: Mr. Ray Vogel, Information Transfer and Program Implementation Division, Office of Air Quality Planning and Standards, Mail Code C304–04, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone (919) 541–3153; fax number: (919) 541–5509; and e-mail address: vogel.ray@epa.gov.

SUPPLEMENTARY INFORMATION:

A. What Is the Purpose of This Notice and Task Force?

The purpose of this notice is to announce an EPA effort to gather information from stakeholders on the performance of the title V operating permits program. Specifically, this notice has two purposes: (1) To solicit interest in participation on an EPA-chaired task force formed to investigate this performance, and (2) to announce a series of all-day public meetings that will be held by this task force.

When Congress amended the Clean Air Act (Act) in 1990, it established an operating permits program in title V of the Act. Title V mandates that EPA establish minimum standards for an operating permits program for major and certain other stationary sources of air pollution. In 1992 and 1996, EPA promulgated regulations setting forth minimum requirements for State, local, and Tribal operating permits programs (40 CFR part 70) and for the Federal operating permits program (40 CFR part 71).

Almost 12 years have passed since EPA promulgated the initial regulations for this program. To better fulfill its oversight responsibilities, as envisioned by Congress, EPA now wants to assess the effectiveness of this program. The Permitting/Toxics Subcommittee of the
