

nonpathogenic bacteria, is expected to protect susceptible plants from infection by wild type *E. amylovora*. The purpose of the field trial is to determine whether the avirulent Hrp-strains are effective as suppression agents of fire blight, one of the most destructive bacterial diseases of apple, pear, and other trees in the family *Rosaceae*.

The genetically engineered strains of *E. amylovora* are considered regulated articles under the regulations in 7 CFR part 340 because the recipient organism is a plant pathogen. The tests will be conducted in both screenhouse and field trials, and access to both sites is restricted by fences and/or chained gates. Data collection and monitoring on bacterial populations and incidence of disease will be conducted during the testing periods. Containment protocols have been designed to limit dispersal of the recombinant bacterium and are expected to provide the necessary degree of both biological and physical containment.

An EA was prepared to examine any potential environmental impacts and plant pest risk associated with the proposed field testing of the subject avirulent mutant strains of *E. amylovora*. Based on that EA, APHIS has reached a FONSI relative to issuance of a permit for the confined field testing of the subject strains of *Erwinia*. In summary, we have based our FONSI on the following conclusions: (1) The test bacterium, *Erwinia amylovora*, has been rendered incapable of causing disease; (2) virulent strains of this bacterium are indigenous to the area of the test; (3) dissemination of the bacteria will be prevented through physical methods, normal site security, the small size of the trials, and decontamination or appropriate disposal of application equipment; (4) the host range of the engineered bacteria has not changed; (5) the bacterium has never been associated with animal or human disease and will not therefore pose a health risk; (6) neomycin phosphotransferase from the marker gene does not confer any plant pest characteristics to *E. amylovora*; (7) native floral and faunal communities, including threatened and endangered species, are not in the host range of *E. amylovora* and therefore will not be affected by the trials.

The EA and FONSI were prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA

Implementing Procedures (7 CFR part 372).

## COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

### Procurement List; Proposed Addition and Deletions

**AGENCY:** Committee for Purchase From People Who Are Blind or Severely Disabled.

**ACTION:** Proposed addition to and deletions from Procurement List.

**SUMMARY:** The Committee is proposing to add to the Procurement List a service to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities, and to delete products previously furnished by such agencies.

*Comments Must Be Received On or Before:* June 20, 2004.

**ADDRESSES:** Committee for Purchase From People Who Are Blind or Severely Disabled, Jefferson Plaza 2, Suite 10800, 1421 Jefferson Davis Highway, Arlington, Virginia 22202–3259.

**FOR FURTHER INFORMATION CONTACT:** Sheryl D. Kennerly, (703) 603–7740.

**SUPPLEMENTARY INFORMATION:** This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51–2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

### Addition

If the Committee approves the proposed addition, the entities of the Federal Government identified in this notice for each product or service will be required to procure the service listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

### Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the service to the Government.
2. If approved, the action will result in authorizing small entities to furnish the service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the service proposed for addition to the Procurement List. Comments on this certification are invited.
