#### SUPPLEMENTARY INFORMATION:

#### Discussion

On April 13, 2004, FAA issued AD 2004–08–15, Amendment 39–13584 (69 FR 21393), that applies to all Goodrich TAWS8000 terrain awareness warning systems (TAWS) that are installed on airplanes. This AD requires you to inspect the TAWS installation and

modify any TAWS where both the TAWS and any other device are connected to the same baro set potentiometer. This AD also prohibits future installation or reconfiguration of any TAWS8000 TAWS that does not incorporate hardware “Mod C”.

#### Need for the Correction

The FAA incorrectly referred to paragraph (d)(1) in the Compliance column of paragraph (e)(2). The correct reference is (e)(1). This action corrects the table in paragraph (e) of AD 2004–08–15, Amendment 39–13584.

This correction is needed to ensure that the affected airplane owners/operators do the corrective action after the inspection required in paragraph (e)(1).

#### Correction of Publication

■ Action is taken herein to correct this reference in AD 2004–08–15 and to add this AD correction to § 39.13 of the Federal Aviation Regulations (14 CFR 39.13).

#### 14 CFR Part 71

[Docket No. FAA–2004–17721; Airspace Docket No. 04–ACE–ACE–33]

#### Modification of Class E Airspace; Mosby, MO

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Direct final rule; request for comments.

**SUMMARY:** This action amends Title 14 Code of Federal Regulations, part 71 (14 CFR 71) by revising Class E airspace at Mosby, MO. On March 1, 2004, a redefined airport reference point (ARP) for Clay County Regional Airport was published in the National Flight Data Digest. A review of controlled airspace at Mosby, MO revealed the Class E airspace area extending upward from 700 feet Above Ground Level (AGL) does not comply with FAA Orders. This action incorporates the revised ARP, expands the area slightly to comply with the criteria for 700 feet above ground level (AGL) airspace required for diverse departures, modifies the extension and brings the Mosby, MO Class E airspace area into compliance with FAA Orders.
