Proposed Information Collection Activity; Comment Request

Proposed Projects: *Title:* Refugee Resettlement Program Estimates: CMA, ORR-1, OMB No. 0970-0030.

Description: The Office of Refugee Settlement (ORR) reimburses, to the extent of available appropriations, certain non-Federal costs for the provision of cash and medical assistance to refugees, along with allowable expenses in the administration of the Refugee Resettlement Program. ORR needs

sound state estimates of likely expenditures for refugee cash, medical, and administrative (CMA) expenditures so that it can anticipate Federal costs in upcoming quarters. If Federal costs are anticipated to exceed budget allocations, ORR must take steps to reduce Federal expenses, such as limiting the number of months of eligibility for Refugee Cash Assistance and Refugee Medical Assistance.

To meet the need for reliable state estimates of anticipated expenses, ORR has developed a single-page form in which states estimate the average number of recipients for each category of assistance, the average unit cost over the next 12 months and the expense for the overall administration of the program. This form, the ORR-1

(formerly Form FSA-601) must be submitted prior to the beginning of each Federal fiscal year. Without this information, ORR would be out of compliance with the intent of its legislation and otherwise unable to estimate program costs adequately.

In addition, the ORR-1 serves as the states's application for reimbursement of its CMA expenses. Submission of this form is thus required by section 412(a)(4) of the Immigration and Nationality Act which provides that "no grant or contract may be awarded under this section unless an appropriate proposal and application * * * are submitted to, and approved by, the appropriate administering official."

Respondents: State governments.

OMB No.: New collection.

Description: Information from the Mentoring Children of Prisoners Data Collection Process is necessary for the Federal agency's reporting and planning under the Government Performance and Results Act and to support evaluation requirements in the statute. The data will be used for accountability monitoring, management improvement, and research. Acquisition of the data ensures that the Federal agency knows if grantees are meeting the targets (number of children being mentored) recorded in the grant application as required by the statute, and that mentoring activities are faithful to characteristics established by research as essential to success. The data also support grantees as they carry out ongoing responsibilities, maintain program service and manage information for internal uses.

Respondents: Recipients of grants from the HHS/ACF/Family and Youth Services Bureau to operate programs to provide mentoring for children of prisoners.
