

Division. WYDEQ Air Quality Division has permitted the mine operator to mine up to 27.5 million tons of coal per year.

The Office of Surface Mining Reclamation and Enforcement (OSM) is a cooperating agency in the preparation of this EIS. If the West Hay Creek LBA tract is leased to the applicant, the new lease must be incorporated into the existing mining plan for the adjacent Buckskin Mine. Before the Federal coal in the tract can be mined, the Secretary of the Interior must approve the revised Mineral Leasing Act (MLA) mining plan. If the tract is leased OSM is the Federal agency that would be responsible for recommending approval, approval with conditions, or disapproval of the MLA mining plan to the Secretary of the Interior.

Seven written comments were received on the Draft EIS, and one comment was recorded at the 2003 public hearing. The issues that were identified in the comment letters and at the hearing included potential conflicts with existing conventional oil and gas and coalbed methane development; potential cumulative impacts of increasing mineral development in the Powder River Basin; validity and currency of resource data; potential impacts to threatened and endangered species and other species of concern; potential cumulative air quality impacts; private versus Federal leasing.

The BLM will consider all comments received on the FEIS in its preparation of the Record of Decision (ROD) and BLM's response to those comments included with the ROD. To be given consideration by BLM, all FEIS comment submittals must include the commenter's name and street address.

Our practice is to make comments, including the names and street addresses of each respondent, available for public review at the BLM offices listed above during business hours (8 a.m. to 4:30 p.m.), Monday through Friday, except for Federal holidays. Your comments may be published as part of the EIS process. Individual respondents may request confidentiality. If you wish to withhold your name, street address, or both, from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comments. Such requests will be honored to the extent allowed by law. We will not consider anonymous comments. All submissions from organizations or businesses will be made available for public inspection in their entirety.

The hearing will include the usual public presentations by the petitioners and by respondents, with questions from the Commission.
