

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[DE101-1037; FRL-7668-1]

Approval and Promulgation of Air Quality Implementation Plans; Delaware; Update to Materials Incorporated by Reference

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; Notice of administrative change.

SUMMARY: EPA is updating the materials submitted by Delaware that are incorporated by reference (IBR) into the State implementation plan (SIP). The regulations affected by this update have been previously submitted by the State agency and approved by EPA. This update affects the SIP materials that are available for public inspection at the Office of the Federal Register (OFR), the Air and Radiation Docket and Information Center located at EPA Headquarters in Washington, DC and the Regional Office.

EFFECTIVE DATE: This action is effective June 21, 2004.

ADDRESSES: SIP materials which are incorporated by reference into 40 CFR part 52 are available for inspection at the following locations: Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103; the Air and Radiation Docket and Information Center, U.S. Environmental Protection Agency, 1301 Constitution Avenue NW., Room B108, Washington, DC 20460; and the Office of the Federal Register, 800 North Capitol Street, NW., Suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Harold A. Frankford, (215) 814-2108 or by e-mail at frankford.harold@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: The SIP is a living document which the State can

revise as necessary to address the unique air pollution problems in the State. From time to time, therefore, EPA must take action on SIP revisions containing new and/or revised regulations as being part of the SIP. On May 22, 1997 (62 FR 27968), EPA revised the procedures for incorporating by reference federally-approved SIPs, as a result of consultations between EPA and OFR. The description of the revised SIP document, IBR procedures and "Identification of plan" format are discussed in further detail in the May 22, 1997, **Federal Register** document. On December 7, 1998 (63 FR 67407), EPA published a document in the **Federal Register** beginning the new IBR procedure for Delaware. In this action, EPA is doing the following:

1. Announcing the first update to the IBR material.
2. Adding § 52.420(e) which summarizes the non-regulatory actions that EPA has taken on the Delaware SIP.
3. Making corrections to the charts listed in § 52.420(c), as described below:
 - a. Regulation 1 (Definitions and Administrative Principles), Section 2—Definitions (second entry)—The entry in the "EPA Approval Date" column is revised by adding the **Federal Register** page citation (64 FR 48961) after the publication date (9/9/99).
 - b. Regulation 4 (Particulate Emissions from Fuel Burning Equipment), Section 1 (General Provisions) and Section 2 (Emission Limits)—The entries in the "EPA Approval Date" column are revised by adding the publication date (3/23/76) after the **Federal Register** page citation (41 FR 12010).
 - c. Regulation 5 (Particulate Emissions from Industrial Process Operations), Section 5 (Restrictions on Petroleum Refining Operations)—The text in the "Comments" column is removed.
 - d. Regulation 9 (Emissions of Sulfur Compounds from Industrial Operations) Section 2 (Restrictions on Sulfuric Acid Manufacturing Operations)—The text in the "Comments" column is revised.

e. Regulation 11 (Carbon Monoxide Emissions from Industrial Process Operations—New Castle County)—The text in the "Comments" column ("Citation revised 3/23/76, 41 FR 12010") is moved from the Section 1 entry (General Provisions) to the Section 2 entry (Restrictions on Petroleum Refining Operations).

f. Regulation 17 (Source Monitoring, Recordkeeping and Reporting)—The existing text in the "Comments" column is removed and replaced with the following text: "Former SIP Sections 1 through 5 respectively; citation revised 2/28/96, 62 FR 7453."

g. Regulation 17, Section 4 (Performance Specifications) and Section 6 (Data Reduction)—The entry in the "EPA Approval Date" column is revised by adding the **Federal Register** page citation (64 FR 48961) after the publication date (9/9/99).

h. Regulation 24 (Control of Volatile Organic Compound Emissions), Section 2 (Definitions)—The text in the "Comments" column is removed.

i. Regulation 31 (Low Enhanced Inspection and Maintenance Program), Sections 4, 10, 11, 12, and Appendices 1(d), 3(a)(7), 3(c)(2), 4(a), 5(a), 6(a)(5), 7(a) and 8(a)—The entry in the "EPA Approval Date" column is revised by adding the **Federal Register** page citation (64 FR 52657) after the publication date (9/30/99).

j. Regulation 39 (Nitrogen Oxides (NO_x) Budget Trading Program)—The text in the "Comments" column is removed. The **Federal Register** publication date and citation (5/17/01, 66 FR 27462) are added in the "EPA approval date" column to each entry, beginning with Section 2, listed under Regulation 39.

k. Regulation 40 (National Low Emission Vehicle Program)—EPA approved this regulation as a revision to the Delaware SIP on December 28, 1999 (64 FR 72564), and therefore added an entry to the table in § 52.420(c) to read as follows:

State citation	Title/subject	State effective date	EPA approval date	Comments
Regulation—National Low Emission Vehicle Program				
Section 1	Applicability	10/11/99	12/28/99 64 FR 72564	Issued on September 1, 1999 by Secretary's Order No. 99-A-0046.
Section 2	Definitions	10/11/99	12/28/99 64 FR 72564	

State citation	Title/subject	State effective date	EPA approval date	Comments
Section 3	Program Participation	10/11/99	12/28/99 64 FR 72564	

However, in a subsequent revision to the chart in §52.420(c), EPA provided an erroneous amendatory instruction which resulted in the inadvertent removal of the Regulation 40 entries from the chart. In today's action, EPA is restoring these entries to §52.420(c).

4. In the tables found in §§ 52.420(c) and 52.420(d), renaming the column heading entitled "Comments" to "Additional Explanation."

EPA has determined that today's rule falls under the "good cause" exemption in section 553(b)(3)(B) of the Administrative Procedures Act (APA) which, upon finding "good cause," authorizes agencies to dispense with public participation; and section 553(d)(3) which allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). Today's rule simply codifies provisions which are already in effect as a matter of law in Federal and approved state programs. Under section 553 of the APA, an agency may find good cause where procedures are "impractical, unnecessary, or contrary to the public interest." Public comment is "unnecessary" and "contrary to the public interest" since the codification only reflects existing law. Immediate notice in the CFR benefits the public by removing outdated citations.

Statutory and Executive Order Reviews

A. General Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the

Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4). This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action also does not have federalism implications because it does not have substantial direct effects on the states, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a State rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. This rule also is not subject to Executive Order 13045 "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the state to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

EPA has also determined that the provisions of section 307(b)(1) of the Clean Air Act pertaining to petitions for judicial review are not applicable to this action. Prior EPA rulemaking actions for each individual component of the Delaware SIP compilations had previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking action. Thus, EPA sees no need in this action to reopen the 60-day period for filing such petitions for judicial review for these "Identification of plan" reorganization update actions for Delaware.

■ 40 CFR part 52 is amended as follows:

PART 52—[AMENDED]

■ 1. The authority for citation for part 52 continues to read as follows:

Authority: 42.U.S.C. 7401 *et seq.*

Subpart I—Delaware

■ 2. Section 52.420 is amended by revising paragraphs (b), (c), and (d), and adding paragraph (e) to read as follows:

§ 52.420 Identification of plan.

* * * * *

(b) Incorporation by reference.

(1) Material listed as incorporated by reference in paragraphs (c) and (d) was approved for incorporation by reference by the Director of the Federal Register

in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Material is incorporated as it exists on the date of the approval, and notice of any change in the material will be published in the **Federal Register**. Entries in paragraphs (c) and (d) of this section with EPA approval dates on or after June 1, 2004 will be incorporated by reference in the next update to the SIP compilation.

(2) EPA Region III certifies that the rules/regulations provided by EPA at the addresses in paragraph (b)(3) of this section are an exact duplicate of the officially promulgated State rules/regulations which have been approved as part of the Delaware State implementation plan as of June 1, 2004.

(3) Copies of the materials incorporated by reference may be inspected at the EPA Region III Office at 1650 Arch Street, Philadelphia, PA 19103; the EPA, Air and Radiation Docket and Information Center, Air Docket (6102), 1301 Constitution Avenue, NW., Room B108, Washington, DC 20460; or the National Archives and Records Administration (NARA). Clean Air Act Operating Permit Program; Petitions for Objection to State Operating Permits for Sirmos Division of Bromante; the New York City Transit Authority's East New York Bus Depot; and the New York Organic Fertilizer Company

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final orders on petitions to object to three State operating permits.

SUMMARY: This document announces that the EPA Administrator has responded to three citizen petitions asking EPA to object to operating permits issued to three facilities by the New York State Department of Environmental Conservation (NYSDEC). Specifically, the Administrator has partially granted and partially denied each of the petitions submitted by the New York Public Interest Research Group (NYPIRG) to object to each of the State operating permits issued to the following facilities: Sirmos Division of Bromante Corp. (Sirmos) in Long Island City, NY; New York City Transit Authority's (NYCTA) East NY Bus Depot in Brooklyn, NY; and New York Organic Fertilizer Company's

(NYOFCO) sludge pelletization facility in the Bronx, NY.

Pursuant to section 505(b)(2) of the Clean Air Act (Act), Petitioner may seek judicial review of those portions of the petitions which EPA denied in the United States Court of Appeals for the appropriate circuit. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307 of the Act.

ADDRESSES: You may review copies of the final orders, the petitions, and other supporting information at the EPA Region 2 Office, 290 Broadway, New York, New York 10007-1866. If you wish to examine these documents, you should make an appointment at least 24 hours before visiting day. Additionally, the final orders for Sirmos, the NYCTA, and NYFCO are available electronically at: <http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitiondb2002.htm>.

FOR FURTHER INFORMATION CONTACT: Steven Riva, Chief, Permitting Section, Air Programs Branch, Division of Environmental Planning and Protection, EPA, Region 2, 290 Broadway, 25th Floor, New York, New York 10007-1866, telephone (212) 637-4074.

SUPPLEMENTARY INFORMATION: The Act affords EPA a 45-day period to review, and object to as appropriate, operating permits proposed by State permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to State operating permits if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity

during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

I. Sirmos

On April 11, 2002, the EPA received a petition from NYPIRG, requesting that EPA object to the issuance of the title V operating permit for Sirmos. The petition raises issues regarding the permit application, the permit issuance process, and the permit itself. NYPIRG asserts that: (1) The permit was issued without adequate opportunity for public comment through a public hearing; (2) the permit is based on an inadequate permit application; (3) the permit lacks an adequate statement of basis; (4) the permit distorts the annual certification requirements; (5) the permit does not require prompt reporting of all deviations; (6) the permit's startup/shutdown, malfunction, maintenance, and upset provision violates part 70; (7) the emergency defense provision is in violation of 40 CFR 70.6(g); (8) the permit lacks federally enforceable conditions that govern the procedures for permit renewal; and (9) the permit lacks monitoring that is sufficient to assure the facility's compliance with all applicable requirements and many individual permit conditions are not practicably enforceable. On May 24, 2004, the Administrator issued an order partially granting and partially denying the petition on Sirmos. The order explains the reasons behind EPA's conclusion that the NYSDEC must reopen the permit to: (1) Include adequate monitoring to assure
