

Street, NE., Washington DC 20426, a motion to intervene in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 385.214 or 385.211) and the regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Comment Date: July 6, 2004.

Magalie R. Salas,

Secretary.

Green Mountain Power Corporation; Notice Granting Late Intervention

June 15, 2004.

On February 18, 2000, the Commission issued a notice of application accepted for filing and soliciting motions to intervene and protests for the Waterbury Hydroelectric Project No. 2090, located on the Little River in Washington County, Vermont. The notice established April 17, 2000, as the deadline for filing motions to intervene.

On March 25, 2002, the Vermont Agency of Natural Resources filed a motion to intervene. Granting the motion to intervene will not unduly delay or disrupt the proceeding, or prejudice other parties to it. Therefore, pursuant to Rule 214,¹ the motion to intervene filed by the Vermont Agency of Natural Resources is granted, subject to the Commission's rules and regulations.

Secretary.
