

comply fully with rule 93 and the System of Accounts.⁴

Cinergy Services was organized to act as a service company subsidiary for Cinergy in connection with the merger that created the Cinergy holding company system.⁵ Cinergy Services renders its services under separate Commission-approved service agreements with Cinergy's utility and nonutility subsidiaries.⁶

Applicant states that the Cinergy system intends to implement a new accounting and reporting system in early 2005. Currently, the system maintains multiple charts of account, including the System of Accounts for Cinergy Services and the FERC Chart of Accounts for the FERC-jurisdictional companies. Under the proposed accounting system, the multiple charts of accounts now used throughout the system will be consolidated into a single chart of accounts. Applicant states that the decision to consolidate the various charts of account into a single chart of accounts reflects Cinergy's view of industry "best practices", including avoidance of account rollup structures,⁷ and is expected to yield a number of other system benefits, including: (1) Improving internal processes; (2) standardizing and streamlining processes; and (3) enhancing reporting

⁴ By implementing this change, the Cinergy system's FERC reporting will not change; rather, Cinergy Services' reporting will be modified to include FERC functionalized accounts.

⁵ See *Cinergy Corp.*, HCAR No. 26146; Oct. 21, 1994 ("Merger Order"). Cinergy directly or indirectly owns all the outstanding common stock of five public utility companies, the most significant of which are PSI Energy, Inc. ("PSI"), an Indiana electric utility, and The Cincinnati Gas & Electric Company ("CG&E") a combination Ohio electric and gas utility and holding company. PSI and CG&E (including the utility subsidiaries of CG&E, the most significant of which is The Union Light, Heat and Power Company, a Kentucky combination electric and gas utility) collectively provide electric and gas service to approximately 1.6 million retail and wholesale customers in parts of Indiana, Ohio and Kentucky. The Cinergy system also includes numerous nonutility subsidiaries engaged in energy-related business and other nonutility businesses authorized under the Act, by Commission order or otherwise.

⁶ The Commission approved the Service Agreements in the Merger Order. In 1997, the Commission authorized an amendment to the Nonutility Services Agreements under which Cinergy Services was authorized to provide an expanded roster of services to associated nonutility companies (HCAR No. 2662; Feb. 7, 1997).

⁷ For example, because the System of Accounts requires Cinergy Services to record operating and maintenance expenses in the administrative and general expense accounts, while under the broader FERC System of Accounts the same type of expenses incurred by FERC-jurisdictional companies are recorded in more specialized functional accounts, Cinergy Services currently maintains a duplicate set of account rollup structures in order to facilitate proper reporting for both Commission and FERC purposes.

system performance. Cinergy Services states that the proposed transactions only affect account-record keeping and reporting presentations and will provide greater transparency regarding its various reporting requirements.

³ See Letter from Glenn J. Verdi, Chief Regulatory Officer, Boston Options Exchange Regulation LLC, BSE to Nancy Sanow, Assistant Director, Division of Market Regulation ("Division"), Commission, dated May 20, 2004 ("Amendment No. 1"). Amendment No. 1 replaced and superceded the original filing in its entirety.

⁴ See Letter from Glenn J. Verdi, Chief Regulatory Officer, Boston Options Exchange Regulation LLC, BSE to Nancy Sanow, Assistant Director, Division, Commission, dated June 8, 2004 ("Amendment No. 2"). In Amendment No. 2, the Exchange made a technical correction to the proposed rule text submitted to the Commission.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The BSE is proposing to amend Ch. XII, Section 2(c)(ii) of the BSE rules related to the intermarket options linkage ("Linkage").

The text of the proposed rule change is available at the Exchange and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The Exchange has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to implement proposed Joint Amendment No. 10 to the Plan for the Purpose of Creating and Operating an Intermarket Option Linkage ("Linkage Plan").⁵ That Plan amendment, together with the instant proposed rule change, would clarify the manner in which BOX Options Participants may send principal acting as agent orders ("P/A Orders")⁶ that are larger than the Firm Customer Quote Size ("FCQS"). The FCQS, among other things, is the minimum size for which an exchange that is a participant in the Linkage Plan must provide an execution in its automatic execution system for a P/A Order, if the exchange's auto-ex system is available.⁷

Currently, Linkage Plan Section 7(a)(ii)(B) and Ch. XII, Section 2(c)(ii) of the BSE Rules ("BSE Rule") provide a BOX Options Participant with two ways to handle orders that are larger than the FCQS. First, the BOX Options

⁵ See Securities Exchange Act Release No. 49689 (May 12, 2004), 69 FR 28953 (May 19, 2004) (File No. 4-429) (Notice of filing Joint Amendment No. 10 to the Linkage Plan).

⁶ A P/A Order is an order for the account of a Market Maker that is authorized to represent Customer orders, reflecting the terms of a related Customer order for which the Market Maker is acting as agent. See Section 2(16)(a) of the Linkage Plan.

⁷ See Sections 7(a)(ii)(A) & (B) of the Linkage Plan.

Participant may send a P/A Order larger than the FCQS for manual processing at the receiving exchange. Second, the BOX Options Participant may send an initial P/A Order for up to the FCQS to be executed in the automatic execution system of the receiving exchange, if available. If the BOX Options Participant then seeks to send another P/A Order, it must send an order for the lesser of the entire remaining size of the underlying customer order or 100 contracts.

This proposed rule change addresses the handling of orders if the BOX Options Participant chooses the second alternative, the sending of multiple P/A Orders. As currently drafted, the Linkage Plan and the BSE Rule do not recognize the possibility that an exchange's disseminated quotation may be for less than either the remaining size of the customer order or 100 contracts. Thus, this proposal specifies that a BOX Options Participant sending a second P/A Order may limit such order to the lesser of: the remaining size of the customer order; 100 contracts; or the size of the receiving exchange's disseminated quotation.

In addition, there is a practical issue if multiple exchanges are displaying the same bid or offer. In that case, the Linkage Plan is unclear as to whether a BOX Participant must send the entire order to one exchange or can send orders to multiple exchanges, as long as they are for the size of the entire order, or 100 contracts, in the aggregate. This proposed rule change clarifies the BSE Rule to specify that a BOX Options Participant may send P/A Orders to multiple exchanges, as long as all such orders, in the aggregate, are for the lesser of the entire remaining size or 100 contracts. However, as is the case when only one exchange is at the NBBO, a BOX Options Participant may limit the size of any single additional order to the size of the receiving market's disseminated quotation.

2. Basis

The Exchange believes that the proposal is consistent with the requirements of Section 6(b) of the Act,⁸ in general, and Section 6(b)(5) of the Act,⁹ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and protect investors and the public interest.

⁹ 15 U.S.C. 78f(b)(5).

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received comments on the proposed rule change.

III. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Comments may be submitted by any of the following methods:

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the proposed rule change, as amended, is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.¹⁰ In particular, the Commission finds that the proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act¹¹ which requires, among other things, that the rules of an exchange be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market, and to protect investors and the public interest. The Commission believes that the proposed rule change should clarify the specialist's obligations in handling P/A Orders, which should facilitate the efficient handling of P/A Orders through the Linkage.

The Commission finds good cause for approving the proposed rule change, as amended, prior to the thirtieth day after the date of publication of the notice thereof in the **Federal Register**. As noted above, the proposed rule change incorporates changes into the BSE Rules that correspond to changes made to the Linkage Plan through Joint Amendment No. 10, which was published for comment on May 19, 2004.¹² The Commission received no comments on the substance of that Amendment. The Commission believes that no new issues of regulatory concern are being raised by BSE's proposed rule change. The Commission believes, therefore, that granting accelerated approval of the proposed rule change is appropriate and consistent with Sections 6 and 19(b) of the Act.¹³

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁴ that the proposed rule change, as amended, (SR-

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49887; File No. SR-CBOE-2004-31]

Self-Regulatory Organizations; Notice of Filing and Order Granting Accelerated Approval of Proposed Rule Change by Chicago Board Options Exchange, Inc., Relating to Handling of Principal Acting as Agent Orders Under Linkage

June 17, 2004.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 11, 2004, the Chicago Board Options Exchange, Incorporated ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I and II below, which Items have been prepared by the CBOE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons and to grant accelerated approval to the proposed rule change.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its rules regarding transmission of certain linkage orders. The text of the proposed rule change is available at the Office of the Secretary, the CBOE and the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, CBOE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The CBOE has

prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to conform CBOE's linkage rules to Joint Amendment No. 10 to the Plan for the Purpose of Creating and Operating an Intermarket Option Linkage ("Linkage Plan") regarding the manner in which a member of an options exchange may send Principal Acting as Agent Orders ("P/A Orders") that are larger than the Firm Customer Quote Size ("FCQS").³ A P/A Order is an order for the account of a market maker authorized to handle agency orders (on CBOE, Designated Primary Market Makers or "DPMs") reflecting the terms of an unexecuted customer order the DPM holds. The FCQS is the minimum size for which an exchange must provide an execution in its automatic execution system for a P/A Order, if the exchange's auto-ex system is available.

Currently, Linkage Plan Section 7(a)(ii)(B) and CBOE Rule 6.81 provide a DPM with two ways to send such orders. First, the DPM may send a P/A Order larger than the FCQS for manual processing at the receiving exchange. Second, the DPM may send an initial P/A Order for up to the FCQS. If the DPM then seeks to send another P/A Order, it must send an order for the lesser of the entire remaining size of the underlying customer order or 100 contracts.

The proposed rule change addresses the handling of orders if the DPM chooses the second alternative, the sending of multiple P/A Orders. Currently, CBOE Rule 6.81 does not recognize the possibility that an exchange's disseminated quotation may be for less than either the remaining size of the customer order or 100 contracts. Thus, the proposed rule change specifies that a DPM sending a second P/A Order may limit such order to the lesser of: (1) The remaining size of the customer order; (2) 100 contracts; or (3) the size of the receiving exchange's disseminated quotation.

In addition, there is a practical issue if multiple exchanges are displaying the same bid or offer. In that case, the Linkage Plan is unclear as to whether a

DPM must send the entire order to one exchange or whether it can send orders to multiple exchanges, as long as they are for the size of the entire order, or 100 contracts, in the aggregate. This proposed rule change seeks to amend CBOE Rule 6.81 to specify that a DPM may send P/A Orders to multiple exchanges, as long as all such orders, in the aggregate, are for the lesser of the entire remaining size or 100 contracts. However, a DPM always may limit the size of any single additional order to the size of the receiving market's disseminated quotation.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with Section 6(b) of the Act⁴ in general and furthers the objectives of Section 6(b)(5)⁵ in particular in that it should promote just and equitable principles of trade, serve to remove impediments to and perfect the mechanism of a free and open market and a national market system, and protect investors and the public interest.

A. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

B. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
