Proposed Project: Charitable Facility Compliance Alternative (amended), Final Rule (OMB No. 0915-0256)—Extension

The Hill-Burton uncompensated services regulations contain information collection requirements in 42 CFR Part 124 which are needed in order to grant certifications to eligible facilities. The charitable facility compliance alternative contains specific reporting requirements. 42 CFR 124.516(d) requires certain information for initial full or provisional certification of nonprofit facilities under the charitable facility compliance alternative. Information for certification of facilities under the charitable facility compliance alternative is needed by the Health Resources and Services Administration to verify that the facilities meet the requirements of the compliance alternative. Information collected for certification consists primarily of: Audited financial statements; philanthropic documentation specifically related to the provision of discounted health services; a description of the discounted or charity care program; documentation confirming the facility's commitment to provide all services to all patients or those patients with incomes up to three times the poverty level for nursing homes and twice the poverty level for all other facilities at no charge or at a discount; and, charging and collection policy and procedures.

The burden estimate for this project is as follows:

Application	Number of respondents	Number of responses per respondent	Total responses	Hours per response	Total burden hours
Application for Compliance Alternative (42 CFR 124.516(d))	5	1	5	6	30

FOR FURTHER INFORMATION CONTACT: Mr. Roger K. Wiebusch, Bridge Administrator, telephone (314) 539-3900, extension 2378.

SUPPLEMENTARY INFORMATION:

Background

Complaints have been received alleging that the bridge is unreasonably obstructive to navigation. Information

available to the Coast Guard indicates numerous bridge allusions have occurred between 1991 and 2003. The navigation opening of the bridge is 131 feet and causes significant delays to commercial water traffic during periods of high water mariners avoid transiting the Simmesport Railroad Bridge and take the Port Allen Route to Morgan City, Louisiana, thereby adding 137 miles or one day to their trip. Based on the comments received at the public hearing, the bridge may be found to be unreasonably obstructive to navigation. Such a finding may require relocating and increasing the horizontal clearance of the railroad bridge to meet the needs of navigation.

Procedural

Please submit all comments in an unbound format, no larger than 8 x 11 inches, suitable for copying and electronic filing. Persons wanting acknowledgement of receipt of comments should enclose a stamped, self-addressed postcard or envelope.

Conclusion of Paperless Drawback Prototype

AGENCY: Customs and Border Protection, Homeland Security.

ACTION: General notice.

SUMMARY: This document announces that U.S. Customs and Border Protection (CBP) will be concluding its Paperless Drawback Prototype. The prototype, which tests the feasibility of filing paperless drawback claims using the Automated Broker Interface of CBP's Automated Commercial System, was announced in a **Federal Register** document published on September 27, 2002. In that document, CBP announced its intent to run the prototype for approximately one year and evaluate the test program at the end of that period. Based on its evaluation, CBP has determined that processing of paperless drawback claims cannot be successfully accomplished under current automated systems and the Paperless Drawback Prototype should not be continued for that reason.

DATES: The Paperless Drawback Prototype will conclude on June 28, 2004.
