SUPPLEMENTARY INFORMATION: The land has been authorized and designated for disposal in the Mimbres Resource Management Plan, dated December 1993, and the public interest will be served by offering this land for sale. The land is hereby classified for disposal in accordance with Executive Order No. 6910, and with Section 7 of the Taylor Grazing Act, 43 U.S.C. 315F. The proposed land will be put up for sale by competitive auction on August 30, 2004.

The auction will be held in accordance with the applicable provisions of Section 203 and 209 of FLPMA (43 U.S.C. 1713 and 1719), respectively, and its implementing regulations, 43 CFR Part 2710 and 2711, at not less than the appraised EMV for the parcel. The appraised EMV of the subject property is \$850,000 (eight

hundred and fifty thousand dollars and no cents).

The purpose of this sale is to dispose of a tract of land that will serve important public objectives, including but not limited to, expansion of communities and economic development, which cannot be achieved prudently or feasibly on land other than public land. The sale of this land outweighs other public objectives and values, including, but not limited to, recreation and scenic values, which would be served by maintaining such tract in Federal ownership. The sale does not affect a grazing allotment. No significant resource values will be affected by this transfer.

The locatable, salable, and leasable mineral rights will be conveyed simultaneously with the surface estate. The disposal would not generate any adverse energy impacts or limit energy production and distribution (Executive Order 13212). It has been determined that the subject parcel contains no mineral value. Acceptance of a sale offer will constitute an application for conveyance of these mineral interests. In conjunction with the final payment, the applicant will be required to pay a \$50.00 non-refundable filing fee for processing the conveyance of the mineral interests when remitting final payment for the parcel.

On July 1, 2004, the above described land will be segregated from all other forms of appropriation under the public land laws, including the general mining laws and leasing under the mineral leasing laws. Upon publication of this notice and until completion of the sale, the BLM will no longer accept land use applications affecting the parcel identified for sale. The segregative effect of this notice shall terminate upon issuance of patent, upon publication in the **Federal Register** of a termination of the segregation or 270 days from the date of publication, whichever occurs first.

3. The BLM may accept or reject any or all offers, or withdraw any parcel of land or interest therein from sale, if, in the opinion of the authorized officer, consummation of the sale would not be fully consistent with FLPMA or other

applicable laws. If not sold, the parcel may be identified for sale at a later date without further legal notice.

In order to establish the EMV of the subject public land through appraisal, certain assumptions have been made of the attitudes and limitations of the land and potential effects of local regulations and policies on potential future land uses.

Through publication of this notice, BLM gives notice that these assumptions may not be endorsed or approved by units of local government. It is the buyer's responsibility to be aware of all applicable local government policies, laws, and regulations that would affect the subject land, including any required dedication of lands for public uses.
