**Affected entities:** Entities potentially affected by this action are States, Federally-recognized Indian tribes and Tribal Consortia, and political subdivisions which apply to EPA for financial assistance under a Superfund cooperative agreement or a Superfund State Contract.

**Title:** Cooperative Agreements and Superfund State Contracts for Superfund Response Actions.

**Abstract:** This ICR authorizes the collection of information under 40 CFR part 35, subpart O, which establishes the administrative requirements for cooperative agreements funded under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) for State, Federally-recognized Indian tribal governments, and political subdivision response actions. This regulation also codifies the

administrative requirements for Superfund State Contracts for non-State lead remedial responses. This regulation includes only those provisions mandated by CERCLA, required by OMB Circulars, or added by EPA to ensure sound and effective financial assistance management under this regulation. The information is collected from applicants and/or recipients of EPA assistance and is used to make awards, pay recipients, and collect information on how Federal funds are being utilized. EPA requires this information to meet its Federal stewardship responsibilities. Recipient responses are required to obtain a benefit (Federal funds) under 40 CFR part 31, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments" and under 40 CFR part 35, "State and Local Assistance." An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

**Burden Statement:** In the previously approved ICR, it was estimated that the annual number of respondents was 581, and the average annual reporting and recordkeeping burden for this collection is estimated to be 8.8 hours per response. The estimated total annual burden is approximately 5,115 hours, and there are no capital/startup or operations and maintenance costs associated with this ICR. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed

to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: June 22, 2004.
