

(3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden to respondents, including use of automated information collection techniques or other forms of information technology.

Cape Cod National Seashore has been charged by the United States District Court, District of Massachusetts to re-evaluate its hunting programs and will be preparing an Environmental Impact Statement (EIS) of hunting within its borders. This study will provide social science input into the EIS process by measuring the attitudes toward hunting among Seashore visitors and the Seashore neighbors, the extent of conflict between hunters and non-hunters, and the attitudes and behaviors of hunters at the Seashore.

**DATES:** Public comments will be accepted on or before September 7, 2004.

**SEND COMMENTS TO:** Dr. James H. Gramann, Visiting Chief Social Scientist, National Park Service, Social Science Program, 1849 C Street, NW (2300), Washington, DC 20240-0001.

**FOR FURTHER INFORMATION CONTACT:** Brian Forist, Research Associate, National Park Service Social Science Program by telephone at 202-513-7190 or by electronic mail at [Brian\\_Forist@partner.nps.gov](mailto:Brian_Forist@partner.nps.gov).

**SUPPLEMENTARY INFORMATION:**

*Titles:* Cape Cod National Seashore Impacts of Hunting Survey of Visitors and Residents.

*Bureau Form Number:* None.

*OMB Number:* To be requested.

*Expiration Date:* To be requested.

*Type of request:* New Collection.

*Description of need:* Because of the long-standing tradition of hunting on Cape Cod, the enabling legislation of Cape Cod National Seashore in 1961 allowed for continued hunting activity within the boundaries of the Seashore. Animal rights group have argued that environmental and social conditions in and around the Seashore have changed, and that hunting should be discontinued. Public meetings about this issue have been contentious, with the hunting community voicing strong opposition to changes in current hunting regulations within the Seashore. Given the polarity of the current debate, questions remain: Do area residents and visitors object to hunting in the Seashore, are they neutral about the issue, or do they consider it an appropriate and/or desirable use of the area? To what extent do residents and visitors feel threatened by hunting activities? How often do conflicts occur between hunters and

non-hunters during the fall and winter hunting seasons? And what is the extent of hunting activity on the Seashore? This study is designed to better understand the scope of hunting activities at the Seashore, the degree of conflict that occurs over the practice, and how people feel about hunting at the Seashore.

*Automated data collection:* At the present time, there is no automated way to gather this information because it includes directly contacting hunters, visitors to Cape Cod National Seashore, and residents in the six surrounding townships.

*Description of respondents:* Visitors to Cape Cod National Seashore and residents of the following townships on Cape Cod: Provincetown, Truro, Wellfleet, Eastham, Orleans, and Chatham.

*Estimated average number of respondents:* 1,500.

*Estimated average number of responses:* 1,500.

*Estimated average burden hours per response:* 25 minutes.

*Frequency of Response:* 1 time per respondent.

*Estimated annual reporting burden:* 625 hours.

Dated: May 25, 2004.

**Leonard E. Stowe,**

*Acting, National Park Service Information Collection Clearance Officer.*
