

1. The cap on AIR-21 slot exemptions (7 a.m. through 9:59 p.m.) will remain in effect through October 29, 2005.

2. The FAA may approve the transfer of slot exemption times between carriers only on a temporary one-for-one basis for the purpose of conducting the operation in a different time period. Carriers must certify to the FAA that no other consideration is involved in the transfer.

3. If any slot exemptions become available for reallocation and there is an air carrier seeking slot exemptions that currently is not conducting operations at the airport, has certified to the Department in accordance with OST Order 2000-4-10 and has a written request on file with the Slot Administration Office, then the available slot exemptions would be offered to that carrier first, provided that the total number of slot exemptions allocated to carriers providing small hub/nonhub service is not fewer than 76. If an eligible new entrant air carrier does not select the slot exemptions, then the FAA will offer the slot exemptions to air carriers in the new entrant category or the small hub/nonhub service category, whichever AIR-21 category is below parity. Once parity is achieved, or the opportunity to achieve parity has been afforded, any remaining available slot exemptions will be offered to carriers in the same AIR-21 category from which the slot exemptions came. The FAA will follow the rank orders for each category, as established in the December 4, 2000, lottery for small hub/nonhub service and the August 15, 2001, lottery for new entrants, as amended.

4. An air carrier will have three business days after an offer from the Slot Administration Office to accept the offered slot exemption. The air carrier's acceptance must be in writing to the Slot Administration Office. If the Slot Administration Office does not receive an acceptance to an offer within three business days, the air carrier will be recorded as rejecting the offer and the FAA will offer the available slot exemptions to the next eligible air carrier.

5. Any air carrier that selects slot exemptions must file with the Department a current certification under Order 2400-4-10 or 2000-4-11, as appropriate, and prior to conducting any flight operations under the exemption. In addition, the FAA will not allocate a slot exemption time to an air carrier until the air carrier first provides the Department and the FAA with the markets to be served, the frequency of the service, the number of slot exemptions to be use, the time

when the operations will occur and the effective date.

6. All operations authorized under AIR-21 must commence within 120 days of a carrier's acceptance of an available slot exemption.

7. The Chief Counsel will be the final decisionmaker concerning eligibility of carriers to participate in the allocation process.

Issued on June 29, 2004, in Washington, DC.

James Whitlow,

Deputy Chief Counsel.
