Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select “search,” then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA’s policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. ICR Title: Reporting and Recordkeeping for Asbestos Abatement Worker Protection.

Abstract: EPA’s asbestos worker protection rule is designed to provide occupational exposure protection to state and local government employees who are engaged in asbestos abatement activities in states that do not have state plans approved by the Occupational Safety and Health Administration (OSHA). The rule provides protection for public employees not covered by the OSHA standard from the adverse health effects associated with occupational exposure to asbestos.

This rule requires state and local governments to monitor employee exposure to asbestos, take action to reduce exposure, monitor employee health, train employees about asbestos hazards, and provide employees with information about exposures to asbestos and the associated health effects. The rule also requires state and local

governments to notify EPA before commencing any asbestos abatement project. State and local governments must maintain medical surveillance and monitoring records and training records on their employees, must establish a set of written procedures for respirator programs and must maintain procedures and records of respirator fit tests. EPA will use the information to monitor compliance with the asbestos worker protection rule.

Responses to the collection of information are mandatory (see 40 CFR part 763, subpart G). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.33 hour per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State or local government agencies in states without an OSHA-approved State Asbestos Plan or State Asbestos Worker Protection Plan that have employees engaged in asbestos-related construction, custodial, and brake and clutch repair activities.

Frequency of Collection: On occasion; includes third-party notification requirement.

Estimated No. of Respondents: 25,312.

Estimated Total Annual Burden on Respondents: 412,243 hours.
Estimated Total Annual Costs: \$13,281,559.

Changes in Burden Estimates: This request reflects a decrease of 24,046 hours (from 436,289 hours to 412,243 hours) in the total estimated respondent burden from that currently in the OMB inventory. This decrease is due to a reduction in the number of supervisors at affected entities that need to read and interpret the regulation. In the previous ICR EPA anticipated that all supervisors undertook this activity. In the current ICR EPA expects that only new supervisors must do so. The change in burden represents an adjustment.

Title: Notification of Episodic Releases of Oil and Hazardous Substances (Renewal)

Abstract: Section 103(a) of CERCLA, as amended, requires the person in charge of a facility or vessel to immediately notify the National Response Center (NRC) of a hazardous substance release into the environment if the amount of the release equals or exceeds the substance's reportable quantity (RQ) limit. The RQ of every hazardous substance can be found in Table 302.4 of 40 CFR 302.4.

Section 311 of the CWA, as amended, requires the person in charge of a vessel to immediately notify the NRC of an oil spill into U.S. navigable waters if the spill causes a sheen, violates applicable water quality standards, or causes a sludge or emulsion to be deposited beneath the surface of the water or upon adjoining shorelines.

The reporting of a hazardous substance release that is above the substance's RQ allows the Federal government to determine whether a Federal response action is required to control or mitigate any potential adverse effects to public health or welfare or the environment. Likewise, the reporting of oil spills allows the Federal government to determine whether cleaning up the oil spill is necessary to mitigate or prevent damage to public health or welfare or the environment.

The hazardous substance and oil release information collected under CERCLA section 103(a) and CWA section 311 also is available to EPA program offices and other Federal agencies who use the information to evaluate the potential need for additional regulations, new permitting requirements for specific substances or sources, or improved emergency response planning. Release notification information, which is stored in the national Emergency Response Notification System (ERNS) data base, is available to State and local government authorities as well as the general public. State and local government authorities and the regulated community use release information for purposes of local emergency response planning. Members

of the general public, who have access to release information through the Freedom of Information Act, may request release information for purposes of maintaining an awareness of what types of releases are occurring in different localities and what actions, if any, are being taken to protect public health and welfare and the environment. ERNS fact sheets, which provide summary and statistical information about hazardous substance and oil release notifications, also are available to the public.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 4 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are facilities or vessels that manufacture, process, transport, or otherwise use certain specified hazardous substances and oil.

Estimated Number of Respondents: 24,082.

Frequency of Response: When a reportable release occurs.

Estimated Total Annual Hour Burden: 98,736.

Estimated Total Annual Cost:

\$7,230,537, includes \$0 annual capital/startup costs, \$0 annual O&M costs and \$7,230,537 annual labor costs.

Changes in the Estimates: There is an increase of 1,459 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is the result of adjustments to the estimates. Annual

respondent burden hours are equal to the number of releases reported to the NRC in a year multiplied by the unit burden hours associated with reporting a release.

SUPPLEMENTARY INFORMATION: EPA has established a public docket for this ICR under Docket ID number RCRA-2004-0006. Documents in the official public docket are listed in the index list in EPA's electronic public docket and

comment system, EDOCKET. Documents may be available either electronically or in hard copy. Electronic documents may be viewed through EDOCKET. Hard copy documents may be viewed at the OSWER Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the OSWER Docket is (202) 566-0270. You may use EDOCKET at <http://www.epa.gov/edocket> to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Certain types of information will not be placed in EDOCKET. Information claimed as CBI, and other information whose disclosure is restricted by statute, which is not included in the official public docket, will not be available for public viewing in EDOCKET. EPA's policy is that copyrighted material will not be placed in EDOCKET but will be available only in printed, paper form in the official public docket. Publicly available docket materials that are not available electronically may be viewed at the docket facility identified above.

Any comments related to this ICR should be submitted to EPA within 60 days of this notice. For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA's EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks that are mailed or delivered to the docket will be transferred to EDOCKET. Public comments that are mailed or delivered to the Docket will be scanned and placed in EDOCKET. Where practical, physical objects will be photographed,

and the photograph will be placed in EDOCKET along with a brief description written by the docket staff.

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket identification number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments in formulating a final decision.

If you submit an electronic comment as prescribed below, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EDOCKET. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EDOCKET at <http://www.epa.gov/edocket>, and follow the online instructions for submitting comments. Once in the system, select "search," and then key in Docket ID No. RCRA-2004-0006. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment. Electronic comments may also be sent through the federal wide eRulemaking Web site at <http://www.regulations.gov>.

Comments may be sent by electronic mail (e-mail) to *rcra-docket@epa.gov*, Attention Docket ID No. RCRA-2004-0006. In contrast to EDOCKET, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through EPA's electronic public docket, EPA's e-mail system
