

Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force will: Conduct a methodologically sound assessment of the failure rates of U.S. munitions in actual combat use; review ongoing efforts to reduce the amount of unexploded ordnance resulting from munitions systems failures, and evaluate whether there are ways to improve or accelerate these efforts; and identify other feasible measures the U.S. can take to reduce the threat that failed munitions pose to friendly forces and noncombatants.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, these meetings will be closed to the public.

Due to scheduling difficulties, there is insufficient time to provide timely notice required by Section 10(a)(2) of the Federal Advisory Committee Act and Subsection 101-6.1015(b) of the GSA Final Rule on Federal Advisory Committee Management, 41 CFR Part 101-6, which further requires publication at least 15 calendar days prior to the meeting.

Dated: June 30, 2004.

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: The Defense Science Board Task Force on Employment of the National Ignition Facility (NIF) met in closed session on July 1-2, 2004, Institute for Defense Analyses, 4850 Mark Center Drive, Alexandria, VA. This Task Force will review the experimental program under development for the National Ignition Facility. NIF is a key component of the National Nuclear Security Administration's (NNSA's) Stockpile Stewardship Program to maintain the

nuclear weapons stockpile without nuclear testing. The NIF is a 192-beam laser designed to achieve fusion ignition and produce high-energy-density condition approaching those of nuclear weapons. NNSA and the high-energy-density physics community have developed a plan for activation and early use of NIF which includes a goal to demonstrate ignition by 2010 and also supports high priority, non-ignition experiments required for stockpile stewardship. In this assessment, the task force will assess the proposed ignition and "non-ignition" high-energy-density experimental programs at NIF. Review the overall balance and priority of activities within the proposed plan and the degree to which the proposed program of NIF experiments supports the near and long term goals of stockpile stewardship and the overall NIF mission. Assess the potential for NIF to support the design and development of new weapons. Focus on the extent to which major stakeholders in NIF are effectively integrated into the plan.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force will assess the proposed ignition and "non-ignition" high-energy-density experimental programs at NIF. Review the overall balance and priority of activities within the proposed plan and the degree to which the proposed program of NIF experiments supports the near and long term goals of stockpile stewardship and the overall NIF mission. Assess the potential for NIF to support the design and development of new weapons. Focus on the extent to which major stakeholders in NIF are effectively integrated into the plan.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552(c) (1) and (4) and that, accordingly, these meetings will be closed to the public.

"Due to scheduling difficulties, there is insufficient time to provide timely notice required by Section 10(a)(2) of the Federal Advisory Committee Act and Subsection 101-6.1015(b) of the GSA Final Rule on Federal Advisory Committee Management, 41 CFR Part 101-6, which further requires publication at least 15 calendar days prior to the meeting."
