SUPPLEMENTARY INFORMATION: The Union Pacific Railroad requested a temporary deviation on May 14, 2004, to allow time to conduct preventative maintenance to the St. Louis Southwestern Railroad Drawbridge, across the White River, mile 98.9 at Clarendon, Arkansas. The St. Louis Southwestern Railroad Drawbridge currently operates in accordance with 33 CFR 117.139 which requires the drawbridge to open on signal for passage of vessel traffic if at least eight hours notice is given. In order to repair machinery, the bridge must be kept in the closed to navigation position. This deviation allows the bridge to remain closed to navigation for 8 days from 6 a.m., August 15, 2004 until 6 p.m., August 22, 2004. There are no alternate routes for vessels transiting through mile 98.9 on the White River. The drawbridge will be incapable of opening for emergencies during the 8-day repair period.

The St. Louis Southwestern Drawbridge provides a vertical clearance of 35 feet above pool stage in the closed to navigation position. Navigation on the waterway consists primarily of commercial tows and recreational watercraft. This deviation has been coordinated with waterway users. No objections were received.

In accordance with 33 CFR 117.35(c), this work will be performed with all due

speed in order to return the bridge to normal operation as soon as possible. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: June 30, 2004.
