### Notice of Lodging of a Consent Decree Under the Comprehensive Environmental Response, Compensation and Liability Act

Under 28 CFR 50.7, notice is hereby given that on June 18, 2004, a proposed Consent Decree in *United States v. Mallinckrodt, Inc.* et al., Civil Action No. 4:02CV1488 was lodged with the

United States District Court for the Eastern District of Missouri.

In this action the United States sought response costs relating to response actions by the Environmental Protection Agency ("EPA") at the Great Lakes Container Corporation Superfund Site in St. Louis, Missouri. The Site is a former drum reclamation facility contaminated primarily with lead and polychlorinated biphenyls ("PCBs"). The settling defendants, Croda Inks Corporation, Engineered Lubricants Co., Gardner Denver, Inc., Jesco Resources, Inc., and the Defense Logistics Agency, sent drums to the facility and thereby contributed small or unknown amounts of lead to the Site. In the proposed consent decree, the settling defendants have agreed to reimburse EPA a total of \$24,197.20 in past response costs. In return, the United States covenants not to sue those parties for their liability related to lead contamination at the Site.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. Mallinckrodt, Inc.* et al., Consent Decree, D.J. Ref. 90-11-3-07280.

## DEPARTMENT OF LABOR

### Employment Standards Administration

#### Wage and Hour Division; Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29
