

2. (a) As to the ALJ's infringement findings with respect to claims 1, 2, 9, 33, 34, 35, and 36 of the '867 patent that are under review, please address whether any of MStar's accused products satisfy the timing equality limitation ("maintain an equality of equal source and destination image frame periods" (ID at 148)) of the wherein clause of claim 1 under the Commission's claim construction. Cite supporting exhibits and testimony of record relevant to this issue, and identify where this specific argument and supporting evidence regarding infringement was presented to the ALJ with citations to previous briefing. (b) Are the ALJ's findings of fact FF 129, 130, and 132 sufficient to support a finding that any of MStar's accused products satisfy the timing equality limitation of the wherein clause of claim 1 under the Commission's claim construction, and infringe claims 1, 2, 9, 33, 34, 35, or 36 of the '867 patent? Cite supporting exhibits and testimony of record, and identify where this evidence and argument was presented to the ALJ with citations to previous briefing.

3. How should the language of claims 13 and 15 of the '361 patent that is under review be construed?

(a) In light of the expert testimony of Ferraro (Trans. at 1423, 1445-51; RDX-102 at 12-15), is it legally permissible to construe "according to" to mean "based upon" in claims 13 and 15 and to mean "consistent with" in claim 5? Please cite to any relevant case law. May the same phrase appearing in two claims of the same patent be construed differently in the two claims by using different definitions for the phrase in question?

(b) Assuming that the '361 patent teaches only "front-end," and not "back-end," vertical expansion (ID at 102-04), is it legally permissible to narrow the meaning of the broad term "an address" to mean "addresses other than the memory read addresses," based on the lack of disclosure of such an embodiment in the specification? Please cite to any relevant case law.

(c) Identify any finding of fact or conclusion of law with respect to infringement, domestic industry, or invalidity in the 491 Final ID rendered clearly erroneous or legally erroneous under the proposed interpretation of the claim limitations under review. Provide supporting citations to the record.

The written submissions should be concise and thoroughly referenced to the consolidated record in this investigation, including references to exhibits and testimony. Additionally, the parties to the investigation, interested government agencies, and any

other interested persons are encouraged to file written submissions on the issues of remedy, the public interest, and bonding. Such submissions should address the ALJ's April 14, 2004, recommended determination on remedy and bonding issued in Display Controllers II, and the ALJ's October 20, 2003, recommended determination on remedy and bonding issued in Display Controllers I. Complainant and the Commission investigative attorney are also requested to submit proposed remedial orders for the Commission's consideration. The written submissions and proposed remedial orders must be filed no later than the close of business on July 16, 2004. Reply submissions must be filed no later than the close of business on July 23, 2004. No further submissions will be permitted unless otherwise ordered by the Commission.

Persons filing written submissions must file with the Office of the Secretary the original and 14 true copies thereof on or before the deadlines stated above. Any person desiring to submit a document (or portion thereof) to the Commission in confidence must request confidential treatment unless the information has already been granted such treatment during the proceedings. All such requests should be directed to the Secretary of the Commission and must include a full statement of the reasons why the Commission should grant such treatment. See 19 CFR 201.6. Documents for which confidential treatment is granted by the Commission will be treated accordingly. All nonconfidential written submissions will be available for public inspection at the Office of the Secretary.

This action is taken under the authority of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in sections 210.42-.45 of the Commission's Rules of Practice and Procedure (19 CFR 210.42-.45).
