

broadcast station, or to make changes in the existing facilities of such stations. Under 47 CFR section 73.3580, applicants must give notice of their applications for new or major changes in facilities in a local newspaper within 30 days, and a copy of both the notice and the application must be placed in the station's public inspection file. On April 4, 2000, the Commission adopted a Report and Order, *In the Matter of Reexamination of the Comparative Standards for Noncommercial Educational Applicants*, MM Docket No. 95-31. This Report and Order adopted new procedures to select among competing applicants for noncommercial educational (NCE) broadcast stations. Among other things, this Report and Order instituted a point system to compare objective characteristics whenever there are competing applications for NCE translator stations. FCC Form 349 was revised to incorporate these newly adopted procedures. Most applicants for NCE translator stations have been required to supplement or settle their request(s) by 2001. A small number of these applicants remain, who were never subject to this requirements. These applicants are still required to supplement their Form 349 applications. The FCC will issue a public notice announcing the procedures to be used in this process at a future date, yet unknown.
