

(5) May receive repayment from a free clinic for reasonable expenses incurred in service provision to patients;

(6) Is licensed or certified to provide health care services at the time of service provision in accordance with applicable law; and

(7) Provides patients with written notification before service provision of the extent to which his/her legal liability is limited pursuant to the Act if his/her associated free clinic has not already provided such notification. In the case of an emergency, the written notice shall be provided as soon thereafter as is practicable. If the patient is a minor or is otherwise legally incompetent, the written notice shall be provided to a legal guardian or other person with legal responsibility for the care of the patient.

\*Free clinic entities may impose charges based on a patient's ability to pay, but in so doing negate the FTCA coverage of the volunteers for the specific services for which the clinic received payment.

III. FTCA Deeming Application

A free clinic may sponsor a free clinic health professional for FTCA deemed status and FTCA coverage for medical malpractice claims by submitting an application meeting the requirements of subsection 224(g)(1)(D) of the Act to the Secretary on behalf of the free clinic health professional. The application must be submitted in such form and manner as the Secretary shall prescribe. Moreover, the application must provide evidence that the free clinic:

(A) Has implemented appropriate policies and procedures to reduce the risk of medical malpractice and lawsuits

arising out of any health or health related functions performed by the free clinic;

(B) Has reviewed and verified the credentials, references, claims history, fitness, professional review organization findings, and license status of its physicians and other licensed or certified health care practitioners, and, where necessary, has obtained its practitioners' permission to access this information;

(C) Has no history of a patient filing a medical malpractice claim against the U.S. Government pursuant to Section 224 for services provided by its free clinic health professionals OR has fully cooperated with the Attorney General in his/her preparation of a defense against any such medical malpractice claim against the U. S. Government. If the free clinic has a history of such a claim, it also must demonstrate that it has taken or will take any necessary steps to prevent such medical malpractice claims in the future; and

(D) Has pledged to fully cooperate with the Attorney General in providing information relating to an estimate of the number of expected medical malpractice claims for the following year as described in Section 224 of the Act.

Pursuant to subsection 224(g)(1)(E) of the Act, the Secretary will determine if the free clinic health professional meets the requirements for FTCA deemed status of the free clinic health professional. The Secretary will provide the free clinic with a notice of the effective date of the free clinic health professional's FTCA deemed status. A free clinic health professional's deemed

status shall apply only to acts or omissions within the scope of the professional's duties at the free clinic occurring on or after the effective date specified in the notice.

This notice is not intended to constitute, and does not constitute, a comprehensive notice pertaining to any provision of the Act except to the extent that procedures pertaining to the implementation of the Act are described explicitly above.

Dated: July 8, 2004.

Elizabeth M. Duke, Administrator.

**BILLING CODE 4820-02-P**

**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

**Environmental Review of Proposed Incidental Take Permit and Habitat Conservation Plan for the Kaua'i Island Utility Cooperative, Hawai'i**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of intent; notice of scoping meeting.

**SUMMARY:** Pursuant to the National Environmental Policy Act the U.S. Fish and Wildlife Service (Service) is advising the public that we intend to gather information necessary to prepare, in coordination with the Hawai'i Department of Land and Natural Resources (DLNR), a joint Federal/State environmental document (Environmental Assessment or Environmental Impact Statement) for a proposed habitat conservation plan (HCP) that is being prepared by the Kaua'i Island Utility Cooperative (KIUC). The proposed HCP is being prepared under section 10(a) of the Federal Endangered Species Act (ESA) and section 195D-21 of the Hawai'i Revised Statutes (HRS). The KIUC intends to apply for an incidental take permit under the ESA and a State section 195D-21 incidental take license to authorize take of the federally endangered Hawaiian petrel (*Pterodroma sandwichensis*), the federally threatened Newell's shearwater (*Puffinus auricularis newelli*), and the band-rumped storm-petrel (*Oceanodroma castro*), a federal

candidate that may become listed under the ESA during the term of the permit. We provide this notice to advise other Federal and State agencies, affected Tribes, and the public of our intentions; to announce the initiation of a 30-day public scoping period; and to request suggestions and information on the scope of issues and alternatives to be addressed in the environmental document. We invite oral or written comments from interested parties to ensure that the full range of issues related to the permit request is identified.

**DATES:** Oral and written comments will be accepted at a public scoping meeting held on Thursday, 16 September 2004 from 7-9 p.m. Written comments from all interested parties must be postmarked by August 16, 2004.

**ADDRESSES:** The public meeting will be held in Lihu'e, Kaua'i, at the Planning Commission Conference Room, Mo'ikeha Building, 4444 Rice Street, Lihue, Hawai'i. Information, written comments, or questions related to the NEPA process, or requests to be added to the mailing list, should be submitted to the Acting Field Supervisor, U.S. Fish and Wildlife Service, Pacific Islands Fish and Wildlife Office, PO Box 50088, Honolulu, Hawai'i 96850 (facsimile: 808-792-9581)

**FOR FURTHER INFORMATION CONTACT:** Arlene Pangelinan, Conservation Planning and Permits Program Leader (see **ADDRESSES**), or at 808-792-9400.

**SUPPLEMENTARY INFORMATION:**

**Reasonable Accommodation**

Persons needing reasonable accommodations in order to attend and participate in the public meeting should contact Jenness McBride, Fish and Wildlife Biologist, as soon as possible (see **ADDRESSES**), or at (808) 792-9400. To allow sufficient time to process requests, please call no later than 1 week before the public meeting.

Information regarding this proposed action is available in alternative formats upon request.

**Background**

Federal agencies are required to conduct National Environmental Policy Act (NEPA) (42 U.S.C. 4321 *et seq.*) analyses of their proposed actions to determine if the actions may affect the human environment. The Service anticipates that the KIUC will request an ESA (16 U.S.C. 1531 *et seq.*) incidental take permit. Therefore, we are seeking public input on the scope of NEPA analysis required, including the range of reasonable alternatives and the associated impacts of those alternatives.

Section 9 of the ESA and its implementing Federal regulations prohibit the "take" of species listed as threatened or endangered. Take is defined under the ESA to include actions that harass, harm, pursue, hunt, shoot, wound, kill, trap, capture or collect listed animal species, or attempt to engage in such conduct (16 U.S.C. 1538). Harm includes significant habitat modification or degradation where it actually kills or injures listed wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, and sheltering (50 CFR 17.3(c)). Under limited circumstances the Service may issue permits to take listed species incidental to, and not the purpose of, carrying out otherwise lawful activities. Section 10(a)(1)(B) of the ESA and regulations governing permits for threatened and endangered species at 50 CFR 17.32 contain provisions for issuing incidental take permits to non-Federal entities for the take of endangered and threatened species, provided the Service determines the following criteria are met: (1) The taking will be incidental; (2) the applicant will, to the maximum extent practicable, minimize and mitigate the impacts of such taking; (3)
