

for the Proposed Tracy to Silver Lake Power Line Project, and has made the document available for public and agency review and comment. The FEIS also analyzes five alternatives to the proposed action that were developed with the cooperating agencies, SPPC, and the public.

DATES: The formal comment period for the FEIS will commence on July 16, 2004, and will end on August 16, 2004. Comments on issues and concerns should be received on or before the end of the comment period at the address listed below.

SUPPLEMENTARY INFORMATION: The FEIS analyzes the environmental impacts associated with the construction,

operation, and maintenance of the proposed 120 kV power line and two substations. The FEIS analyzes the proposed power line route and five alternative routes, as well as, an alternative site for each of the two proposed substations. Issues analyzed were brought forth through the public scoping process, cooperating agency coordination, and input from BLM's resource specialists. The proposed power line crosses several jurisdictions with permitting responsibilities, therefore, the following agencies or entities are active participants in the EIS process as formal cooperating agencies: Reno-Sparks Indian Colony; Washoe County; City of Reno; City of Sparks; Airport Authority of Washoe County; and Truckee Meadows Regional Planning Agency. A copy of the FEIS has been sent to all individuals, agencies, and groups who have expressed an interest in the project, or as mandated by regulation or policy.

Public participation has occurred throughout the EIS process. A Notice of Intent to Prepare an EIS was published in the **Federal Register** on June 25, 2002 and the 30-day public comment period was initiated. A BLM public, open house was held in Reno on July 17, 2002 and six additional presentations were made to local agencies, homeowner associations, and the Reno-Sparks Indian Colony Tribal Council.

The Draft EIS was filed with the Environmental Protection Agency and a Notice of Availability of the document, announcement of public presentations, and initiation of a 60-day comment period was published in the **Federal Register** on October 10, 2003 (Pages 58668–58669). Two BLM public, open houses were held in Reno and sixteen additional presentations were conducted for local governments, planning commissions, citizen advisory boards, homeowner associations, and the Reno-Sparks Indian Colony Tribal Council. Certain adaptations or revisions were made to the FEIS in response to comments received on the Draft EIS. The comments and BLM responses to those comments are included in the FEIS.

To assist the BLM in identifying and considering issues and concerns on the proposed action and alternatives, comments on the FEIS should be as specific as possible. Comments should also refer to specific pages or chapters in the document. After the 30-day comment period ends, all comments will be analyzed and considered by the BLM in preparing the Record of Decision.

Dated: June 10, 2004.

Notice of Availability of the Rogue National Wild and Scenic River: Hellgate Recreation Area Management Plan and Record of Decision

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: Notice is hereby given that the Bureau of Land Management (BLM), Medford District Office, Grants Pass Resource Area has prepared and approved the Rogue National Wild and Scenic River: Hellgate Recreation Area Management Plan and Record of Decision (RAMP/ROD) for the 27-mile stretch of the recreation section of the Rogue National Wild and Scenic River located in southern Josephine County, Oregon. The Rogue River was one of eight rivers identified as part of the National Wild and Scenic Rivers System when the Wild and Scenic Rivers Act was passed in 1968. The Wild and Scenic Rivers Act of 1968 established the wild and scenic rivers system (Pub. L. 90-542 and 99-590). The Wild and Scenic Rivers Act (WSRA) established a method for providing federal protection for certain remaining free-flowing rivers and preserving them and their immediate environments.

The Proposed Action (Alternative E), as analyzed in the FEIS, with minor decision changes resulting from public comments, are selected as the Record of Decision (ROD). It responds to issues raised during scoping and to public comments. It is a composite of various elements of the five alternatives (A to E) considered and analyzed in the Final EIS. The RAMP does the following: (1) Provides protection and enhancement of the outstandingly remarkable values while concurrently attaining the widest range of neutral and beneficial uses of the environment without degradation, (2) maintains an environment that supports diverse recreational opportunities, (3) integrates resource protection with an appropriate range of visitor uses, (4) contributes economically to the local communities, and (5) provides multi-resource standards and direction found in other legislation, policies, or management

plans that are designed to comply with applicable State and Federal laws.

The RAMP and ROD are signed by the District Manager and the Grants Pass Field Manager and will become effective upon publication of this notice. The RAMP and ROD have been prepared in accordance with section 202 of the National Environmental Policy Act of 1969 (NEPA), the Federal Land Policy and Management Act of 1976 (FLPMA), and BLM management policies. The RAMP and ROD conforms with the management direction contained in the 1995 Medford District Record of Decision and Resource Management Plan (RMP) and does not amend that plan.

DATES: Effective date of this decision is the date of this publication notice.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR Part 4. Any parties adversely affected by this decision have the right to appeal within 30 days of publication of this notice.

SUPPLEMENTARY INFORMATION: The purpose of the RAMP and ROD is to: (1) Replace the 1978 Rogue National Wild and Scenic River Activity Plan for the Hellgate Recreation Section of the Rogue National Wild and Scenic River; (2) provide management direction and guidance on the management of the Hellgate section pursuant to the Wild and Scenic Rivers Act of 1968 (Pub. L. 90-542, October 2, 1968); and (3) maintain and manage a mix of water-based visitor use activities and users common to the river since its designation in 1968 as a National Wild and Scenic River, while protecting and enhancing the environment and the outstandingly remarkable values: Natural scenic quality, fisheries, and recreation opportunities.

Public participation has occurred throughout the planning process. A Notice of Intent was published in the **Federal Register** on October 1, 1993 and the Draft EIS Notice of Availability was published in the **Federal Register** on November 24, 2000. Public comments were solicited during scoping and through a 90-day comment period for the Draft EIS.
