#### SUPPLEMENTARY INFORMATION:

I. *Background:* The ETA 207 Report, Nonmonetary Determination Activities, contains state data on the number and types of issues that arise when unemployment insurance (UI) claims are filed. It also has data on the number of disqualifications that are issued due to reasons associated with a claimant's separation from employment or issues related to an individual's continuing eligibility for benefits. These data are used by the Office of Workforce Security (OWS) to determine workload counts, to evaluate the adequacy and effectiveness of nonmonetary determination procedures, and to evaluate the impact of state and Federal legislation with respect to such disqualifications.

II. *Desired Focus of Comments:* Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension collection of the ETA 207, Nonmonetary Determinations Activities Report. Comments are requested to:

- Evaluate whether the proposed collection of information is necessary to assess performance of the nonmonetary determination function, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed above in the addressee section of this notice.

III. *Current Actions:* The continued collection of the information contained on the ETA 207 report is necessary to enable the OWS to continue evaluating state performance in the nonmonetary determination area and to continue using the data as a key input to the administrative funding process.
