

of the 18 weekly frequencies that become available March 25, 2005.

Docket Number: OST-2004-18574.

Date Filed: July 2, 2004.

Due Date for Answers, Conforming Applications, or Motion to Modify Scope: July 23, 2004.

Description: Application of Sunworld International Airlines, Inc., requesting to resume operations, and requests that the 45-day advance filing requirement be waived in light of the difficulty and expense of maintaining an aircraft and paying salaries and rent without being able to conduct revenue operations.

Andrea M. Jenkins,

Program Manager, Docket Operations, Federal Register Liaison.

BILLING CODE 4910-62-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

Qualification of Drivers; Exemption Applications; Diabetes

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of denials.

SUMMARY: The FMCSA announces its denial of 39 applications from individuals who requested an exemption from the Federal diabetes standard applicable to interstate truck drivers and the reasons for the denials. The FMCSA has statutory authority to exempt individuals from the diabetes standard if the exemptions granted will not compromise safety. The agency has concluded that granting these exemptions does not provide a level of safety that will equal or exceed the level of safety maintained without the exemptions for these commercial motor vehicle drivers.

FOR FURTHER INFORMATION CONTACT: Ms. W. Teresa Doggett, Office of Bus and Truck Standards and Operations (MC-PSD), (202) 366-2990, Department of Transportation, FMCSA, 400 Seventh Street, SW., Washington, DC 20590-0001. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31315 and 31136(e), FMCSA may grant an exemption from the Federal diabetes standard for commercial drivers with insulin-treated diabetes mellitus for a renewable 2-year period if it finds such an exemption would likely achieve a level of safety

that is equivalent to, or greater than, the level that would be achieved absent such an exemption (49 CFR 381.305(a)).

Accordingly, FMCSA evaluated 39 individual exemption requests on their merits and made a determination that these applicants do not satisfy the criteria established to demonstrate that granting an exemption is likely to achieve an equal or greater level of safety than exists without the exemption. Each applicant has, prior to this notice, received a letter of final disposition on his/her individual exemption request. Those decision letters fully outline the basis for the denial and constitute final agency action. The list published today summarizes the agency's recent denials as required under 49 U.S.C. 31315(b)(4) by periodically publishing names and reasons for denials.

The following 22 applicants lacked sufficient recent driving experience under normal highway operating conditions over the previous three years that would serve as an adequate predictor of future safe performance:

Broderick, James A., Christensen, Gary C., Clemens, Stephen R., Curtis, James T., Eudy, Charles K., Ewen, Rex C., Fernald, Frank L., Goodman, Timothy L., Hankel, Jr., Charles T., Hansen, Gerald P., Kingston, Franklin P., Koenig-Warren, Linda L., Kruse, Edward V., Leisgang, Gregory A., Monroe, Tommie A., McClafin, David E., Nelson, Ronald W., Pflugler, Jr., Robert L., Ruhmann, Wayne, Schooler, Michael D., Stock, Anthony E., Wright, Darryl L.

One applicant, Mr. Ken Greer, does not have any experience operating a commercial motor vehicle (CMV) and therefore presented no evidence from which FMCSA can conclude that granting the exemption is likely to achieve a level of safety equal to that existing without the exemption.

The following 5 applicants do not have 3 years of experience driving a CMV on public highways with insulin-treated diabetes mellitus: Choy, Jorge L., Sewell, Dean A., Thiel, Samuel G., Walters, Leonard D., Zoller, Steven R.

Three applicants, Mr. Ronald G. Gross, Mr. Israel Hernandez, and Mr. Thomas E. Richards, do not have recent experience driving a CMV. Applicants must have driven for at least the three years preceding their filing of an application for an exemption.

One applicant, Mr. John C. Nickles, does not have insulin-treated diabetes mellitus and does not need the exemption.

One applicant, Mr. Lowell T. Tucker, contributed to a crash while operating a CMV, which is a disqualifying offense.

Two applicants, Mr. Joseph C. McMasters and Mr. Nicholas C. Stanley, did not hold a license that allowed operation of vehicles over 10,000 pounds for all or part of the 3-year period.

One applicant, Mr. Brian F. Beebe was denied for multiple reasons.

Two applicants, Mr. Alfred Gjaltema and Mr. Cory L. Swanson, provided false documentation during the application process.

The commercial driver's license of one applicant, Mr. James G. Arnoldussen, was suspended during the 3-year period because of a moving violation. Applicants do not qualify for an exemption with a suspension during the 3-year period.

Issued on: July 14, 2004.

Pamela M. Pelcovits,

Director of Policy, Plans and Regulations.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

Office of Hazardous Materials Safety; Notice of Applications for Modification of Exemption

AGENCY: Research and Special Programs Administration, DOT.

ACTION: List of applications for modification of exemption.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Material Regulations (49 CFR part 107, subpart B), notice is hereby given that the Office of Hazardous Materials Safety has received the application described herein. This notice is abbreviated to expedite docketing and public notice. Because the sections affected, modes of transportation, and the nature of application have been shown in earlier **Federal Register** publications, they are not repeated here. Request of modifications of exemptions (e.g. to provide for additional hazardous materials, packaging design changes, additional mode of transportation, etc.) are described in footnotes to the application number. Application numbers with the suffix "M" denote a modification request. There applications have been separated from the new application for exemption to facilitate processing.

DATES: Comments must be received on or before August 9, 2004.
