Texas Eastern states that the purpose of this filing is to supplement its June 30, 2004, filing in Docket No. RP04-382-000 (June 30 Filing), in which Texas Eastern submitted revised tariff sheets to reduce to zero its Gas Research Institute (GRI) surcharges, effective August 1, 2004, in compliance with the January 21, 1998, Stipulation and Agreement Concerning GRI Funding approved by the Commission in Gas Research Institute, 83 FERC ¶ 61,093, order on reh'g, 83 FERC ¶ 61,331 (1998). Texas Eastern further states that this filing supplements the June 30 Filing by including First Revised Sheet No. 40A, which was inadvertently omitted from the June 30 Filing, to be effective as of August 1, 2004, concurrently with the revised tariff sheets included in the June 30 Filing.

Texas Eastern states that copies of the filing have been served upon all affected customers of Texas Eastern and interested State commissions, as well as to parties on the Commission's official service list in this proceeding.

Any person desiring to protest this filing must file in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). Protests to this filing will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Such protests must be filed in accordance with the provisions of section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing a protest must serve a copy of that document on all the parties to the proceeding.

The Commission encourages electronic submission of protests in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

#### Texas Gas Transmission, LLC; Notice of Application

July 16, 2004.

Specifically, the Texas Gas Storage Expansion Project involves the installation of two new turbine compressors in order to increase the deliverability of the Midland Gas Storage Field located in Muhlenberg County, Kentucky, which will allow Texas Gas to utilize additional working gas on a firm seasonal basis, all as more fully described in the request which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. Any questions regarding this application should be directed to Kathy D. Fort, Manager, Certificates and Tariffs; Texas Gas Transmission, LLC; P.O. Box 20008, Owensboro, Kentucky 42304 or call (270) 688-6825.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10) by the comment date, below. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken; but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

The Commission strongly encourages electronic filings of comments, protests and interventions via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.
