

domestic demand, as required by the statute.

2. Copper scrap prices have increased significantly during the time period presented in the petition, 1999–2003 and year-to-date 2004. However, the evidence does not demonstrate the existence of a shortage.

3. The world market for copper cathode, not the level of U.S. exports of copper-based scrap, is the most important determinant in the fluctuation of domestic copper scrap prices.

4. The evidence does not demonstrate a significant adverse effect on the national economy or any sector thereof resulting from the domestic copper scrap price increase.

5. Monitoring, export controls, or both, are unnecessary at this time in order to achieve the policy of EAA Section 3(2)(C).

Under Section 7(c)(3)(A) of the EAA, the Department has determined that, in light of the determinations set forth above, neither export controls nor monitoring is necessary in order to carry out the policy set forth in Section 3(2)(C) of the EAA.

However, given the increase in prices and exports in the recent years, the Department will work with its Bureau of the Census to refine the Schedule B classifications for copper-based scrap in order to better delineate the varieties of scrap that are being exported. We will then review the new data in the coming year. Among other things, this data will allow us to determine the extent to which the copper-based scrap being exported is of a variety that could otherwise be utilized by the U.S. copper-based scrap consuming industry. We note that the petitioners requested that this data be obtained. See Hearing Transcript, p. 41.

In addition, the Department will work closely with the Office of the United States Trade Representative and the Department of State to address any foreign government practices that are distorting the trade in copper-based scrap. For instance, we will encourage Russia and Ukraine to remove their restrictions on copper-based scrap exports. We will monitor China's implementation of its new licensing system for scrap metal imports, and will also evaluate and, as appropriate, respond to Chinese government practices that may be spurring exports of U.S. copper-based scrap to China.

Stainless Steel Plate in Coils From Italy; Preliminary and Final Results of Full Sunset Review of Countervailing Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Extension of Time Limit for Preliminary and Final Results of Full Sunset Review: Stainless Steel Plate in Coils from Italy.

SUMMARY: The Department of Commerce (“the Department”) is extending the time limit for its preliminary and final results in the full sunset review of the countervailing duty order on stainless steel plate in coils (“SSPC”) from Italy.¹ The Department intends to issue preliminary results of this sunset review on or about August 18, 2004. In addition, the Department intends to issue its final results of this review on or about December 29, 2004 (120 days after the date of publication in the **Federal Register** of the preliminary results).

EFFECTIVE DATE: July 26, 2004.

FOR FURTHER INFORMATION CONTACT:

Hilary E. Sadler, Esq., Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482–4340.

Extension of Preliminary and Final Determinations

On April 1, 2004, the Department initiated a sunset review of the countervailing duty order on SSPC from Italy. See *Initiation of Five-Year (Sunset) Reviews*, 69 FR 17129 (April 1, 2004). The Department, in this proceeding, determined that it would conduct a full (240 day) sunset review

¹ The Department normally will issue its preliminary results in a full sunset review not later than 110 days after the date of publication in the **Federal Register** of the notice of initiation. However, if the Secretary determines that a full sunset review is extraordinarily complicated under section 751(c)(5)(C) of the Act, the Secretary may extend the period for issuing final results by not more than 90 days. See section 751(c)(5)(B) of the Act.

of this order based on responses from the domestic and respondent interested parties to the notice of initiation. The Department's preliminary results of this review were scheduled for July 20, 2004. However, several issues have arisen regarding the revised net subsidy rate of the order with respect to Thyssen Krupp Acciai Speciali Terni (“TKAST”) and its effect on this sunset review. See *Notice of Implementation Under Section 129 of the Uruguay Round Agreements Act: Countervailing Measures Concerning Certain Steel Products From the European Communities*, 68 FR 64858 (November 17, 2003).

Because of the numerous, complex issues in this proceeding, the Department will extend the deadlines. Thus, the Department intends to issue the preliminary results on or about August 18, 2004 and the final results on or about December 29, 2004 in accordance with section 751(c)(5)(B).

Dated: July 19, 2004.

Acting Assistant Secretary for Import Administration.

Commercial Service Franchising Trade Mission

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice to announce franchising trade mission to Dublin, Ireland, October 4-5, 2004.

FOR FURTHER INFORMATION CONTACT:

Office of Business Liaison; Room 5062; Department of Commerce; Washington, DC 20230; Tel: (202) 482-1360; Fax: (202) 482-4054.

SUPPLEMENTARY INFORMATION:

Franchising Trade Mission, Dublin, Ireland

October 4-5, 2004.

Mission Statement

I. Description of the Mission

The United States Department of Commerce, International Trade Administration, U.S. Commercial Service, Office of Export Promotion Services is organizing a Franchising Trade Mission to Dublin, Ireland, October 4-5, 2004. This event will target the service sectors that have potential for participating U.S. franchisors.

II. Commercial Setting for the Mission

The franchise sector in Ireland has experienced substantial growth in the past few years, with 160 systems now operating over 1,400 individual units in Ireland. The industry supports approximately 15,000 full-time equivalent jobs and during 2002 generated annual sales of over \$1.3 billion. The number of franchise units is expected to reach 2,500 over the next three years. This surge in interest is being met by a healthy supply base of potential master licensees and franchisees.

The principal business sectors served by franchise operations in Ireland are food, home improvement, maintenance, business and professional services. The U.S. is now the dominant source of franchises, accounting for 39 percent of the market, overtaking the U.K. by 9 percent, while indigenous franchises account for a further 15 percent. U.S. franchises include household names such as Mail Boxes, Etc., McDonald's, TGI Fridays, and Remax. In line with high growth in the sector, established fast food companies including KFC, Burger King and Domino's Pizza have announced aggressive expansion plans to develop a combined total of 140 units over the next four years.

Indigenous franchises are also contributing to the strong growth of the sector, with the rapid expansion of franchises such as Supermacs, Abrakebabara, Nector Juice Bars and Ireland's most successful domestic and international franchise, O'Briens Irish Sandwich Bars. Future growth areas are predicted to include home help, building maintenance, cleaning, restaurant business, small home office and childcare facilities.

III. Goals for the Mission

The Trade Mission's goal is to gain first-hand market information and provide access to key government officials and potential business partners for new-to-market, and new-to-export U.S. franchises desiring to enter the Ireland's promising market.
