The twenty-six (26) settling parties collectively have agreed to pay \$996,210.00 to the Hazardous Substances Trust Fund subject to the contingency that EPA may elect not to complete the settlement if comments received from the public during this comment period disclose facts or considerations which indicate the proposed settlement is inappropriate, improper, or inadequate. Monies collected from the *de minimis* parties will be applied towards past and future response costs incurred by EPA or PRPs performing work at or in connection with the Site. The settlement includes a premium payment equal to either 125% or 225% of the estimated future response costs incurred in connection with the Site, to be assessed as follows: 125% assessed for those parties that have not received a prior *de minimis* settlement offer from EPA; and 225% for those parties that received a prior settlement offer from EPA but declined to participate in a prior settlement. The additional premium assessed for those parties that received a prior settlement offer from EPA but declined to participate in a prior settlement, was intended to mitigate any financial gain the parties might have obtained by not participating in the first settlement. The settlement also includes a reservation of rights by EPA, pursuant to which EPA reserves its rights to seek recovery from the settling *de minimis* parties of response costs incurred by EPA in connection with the Site to the extent such costs exceed \$31.2 million.

EPA is entering into this agreement under the authority of section 122(g) of CERCLA, 42 U.S.C. 9622(g). Section 122(g) authorizes early settlements with *de minimis* parties to allow them to resolve their liabilities at Superfund Sites without incurring substantial transaction costs. Under this authority, EPA proposes to settle with potentially responsible parties in connection with the Malvern TCE Superfund Site, each of whom is responsible for .75 percent or less of the volume of hazardous substance sent to the Site. As part of this *de minimis* settlement, EPA will grant the twenty-five settling *de minimis* parties a covenant not to sue or take administrative action against any of the twenty-five settling PRPs for reimbursement of response costs or injunctive relief pursuant to sections

106 and 107 of CERCLA, 42 U.S.C. 9606 and 9607, or for injunctive relief pursuant to section 7003 of the Resource Conservation and Recovery Act, 42 U.S.C. 6973, with regard to the Site. EPA initially issued this settlement offer to the *de minimis* parties on August 18, 2003. This offer was subsequently revised and reissued on October 20, 2003.

The Environmental Protection Agency will receive written comments relating to this settlement for thirty (30) days from the date of publication of this notice. The Agency will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. Commenters may request an opportunity for a public meeting in the affected area in accordance with section 7003(d) of RCRA, 42 U.S.C. 6973(d). A copy of the proposed Administrative Order on Consent can be obtained from Joan A. Johnson, U.S. Environmental Protection Agency, Region III, Office of Regional Counsel, 1650 Arch Street, Philadelphia, Pennsylvania 19103-2029, or by contacting Joan A. Johnson at (215) 814-2619.

Synopsis: As background, TRS, as mandated by Title IV of the Americans with Disabilities Act of 1990, makes the

telephone system accessible to individuals with hearing or speech disabilities. See 47 U.S.C. 225. This is accomplished through TRS facilities that are staffed by specially trained CAs using special technology. The CA relays conversations between persons using various types of assistive communication devices and persons who do not require such assistive devices. VRS—Video Relay Service—is "a telecommunications relay service that allows people with hearing or speech disabilities who use sign language to communicate with voice telephone users with video equipment. The video link allows the [communications assistant] to view and interpret the party's signed conversation and relay the conversation back and forth with a voice caller." 47 CFR 64.601(17). According to HOVRS, Video VRS Mail is a means by which hearing persons can have a VRS communications assistant send a message in video format (American Sign Language) to a deaf or hard of hearing VRS user who is not available to answer the call, so that the VRS user can retrieve the video message at a later time.
