Background: On March 3, 1999, the Department published a notice in the **Federal Register** (64 FR 10352) inviting applications for a new award for a Center for Students With Disabilities Involved With and at Risk of Involvement With the Juvenile Justice System (Center) for fiscal year (FY) 1999. Based on that notice, the Department made one award for a period of 60 months to the University of Maryland to establish and operate the Center to provide guidance and assistance to States, schools, justice programs, families, and communities in designing, implementing, and evaluating comprehensive educational programs, based on research validated

practices, for students with disabilities at risk of involvement or involved in the juvenile justice system. The Center focuses on three broad areas: (1) Prevention programs, (2) educational programs, and (3) reintegration or transition programs. The Center addresses these three areas through research, training, and technical assistance and dissemination. The Department is seeking additional support for a competition to be held in FY 2005, which would continue the work of the Center. However, the current grant period for the Center ends on August 31, 2004.

In order to ensure that the work of the Center will continue until a new award can be made, the Secretary proposes to waive 34 CFR 75.250 and 75.261(a) and proposes to issue a continuation award to the existing grantee for an additional twelve-month period.

The Center will continue dissemination and technical assistance activities including:

(a) Preparation and dissemination of information materials designed to increase awareness of and use of research validated practices to a variety of audiences (e.g., educators, justice personnel, mental health personnel, judges, policymakers, families, and other service providers).

(b) Providing for information exchanges between researchers and practitioners who direct model programs and those seeking to design or implement model programs.

The Center will continue training activities including:

Funding at least three graduate students who have concentrations in special education or criminal justice to work as project research assistants for the Center. These students will assist with project facilitation and the Center's research and evaluation of programs.

The Center will also complete additional research activities as appropriate.

Regulatory Flexibility Act Certification

The Secretary certifies that the proposed extension of the project period and waiver will not have a significant economic impact on a substantial number of small entities. The only entity that would be affected is the Center for Students With Disabilities Involved With and at Risk of Involvement With the Juvenile Justice System.

Paperwork Reduction Act of 1995

This proposed extension of project period and waiver does not contain any information collection requirements.

Intergovernmental Review

This program is not subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79.

BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

National Research Center for Career and Technical Education and National Dissemination Center for Career and Technical Education

AGENCY: Office of Vocational and Adult Education, Department of Education.

ACTION: Notice of extension of project period and waivers.

SUMMARY: We hereby waive the requirements in 34 CFR 75.261(c)(2) and 75.250 as they apply to the projects funded in fiscal year (FY) 1999 under the National Research Centers authority of section 114(c)(5) and (6)(A) of the Carl D. Perkins Vocational and Technical Education Act of 1998 (the Perkins Act). We waive these requirements in order to be able to extend the project periods for the two current grants awarded under the FY 1999 National Research Centers (National Center or Centers) competition.

The waivers mean that: (1) Current grants may be continued at least through 2005 (and possibly for subsequent years, depending on the availability of appropriations for the National Centers in those years under the current statutory authority for the National

Centers), instead of ending in 2004, and (2) we will not announce a new competition or make new awards in FY 2004.

DATES: This notice of extension of project period and waivers is effective July 28, 2004.

FOR FURTHER INFORMATION CONTACT: Sharon A. Jones, U.S. Department of Education, Office of Vocational and Adult Education, 400 Maryland Avenue, SW., room 11108, Potomac Center Plaza, Washington, DC 20202-7120. Telephone (202) 245-7803.

If you use a telecommunications device for the deaf (TDD), you may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Individuals with disabilities may obtain this notice of extension of project period and waivers in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to the contact person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION: On April 27, 2004, we published a notice in the **Federal Register** (69 FR 22772) proposing an extension of project period and waivers to continue the five-year cooperative agreements we entered into in FY 1999 with the University of Minnesota for the National Research Center for Career and Technical Education and with The Ohio State University for the National Dissemination Center for Career and Technical Education. These cooperative agreements are now in their fifth year, during which the Department typically would hold a competition for new National Centers. However, the Perkins Act, which includes authorization for the National Centers, expired at the end of FY 2003. Although the Perkins Act was automatically extended for one year under section 422 of the General Education Provisions Act (20 U.S.C. 1226a), with the uncertainties presented by the absence of authorizing legislation for the National Centers beyond 2004, we proposed not to hold a competition in FY 2004 for projects that might then operate for just one year, as grantees would not have time to establish and operate effective projects. We stated in the **Federal Register** notice that we were reluctant to announce a competition under which eligible entities would proceed through the application preparation and submission process while lacking critical information about the future of the program, and that we did not think that it would be in the public interest to do so in this case.

Accordingly, we proposed to review requests for continuation awards from
