C. How and To Whom Do I Submit My Comments?

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket identification number in the subject line on the first page of your comments. Please ensure that your comments are submitted within the specified time period. Comments received after the close of the stated time period will be marked "Late." EPA might not be able to consider late submissions. If you wish to submit information claimed as CBI or information that is otherwise protected by statute, please follow the instructions in Section I.D. Do not use EPA Dockets or e-mail to submit information claimed as CBI or information protected by statute.

1. *Electronically.* If you submit electronic comments as prescribed below, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comments. Also include this contact information on the outside of any disk or CD-ROM you submit, and in any cover letter accompanying the disk or CD-ROM. This ensures that you can be identified as the submitter of the comments and allows EPA to contact you in case EPA cannot read your comments due to technical difficulties or needs further information on the substance of your comments. EPA will not edit your comments, and any identifying or contact information provided in the body of a comment will be included as part of the comments that are placed in the public docket, and made available in EPA's electronic public docket. If EPA cannot read your comments due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comments.

i. *EPA Dockets.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket> and follow the online instructions for submitting comments. To access EPA's electronic public docket from the EPA Internet Home Page, select "Information Sources," "Dockets," and "EPA Dockets." Once in the system, select "Search," and then key in Docket ID No. OW-2004-0003. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact

information unless you provide it in the body of your information.

ii. *E-mail.* Comments may be sent by electronic mail (e-mail) to: *OW-Docket@epa.gov*, Attention Docket ID No. OW-2004-0003. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comments that are placed in the public docket, and made available in EPA's electronic public docket.

iii. *Disk or CD-ROM.* You may submit comments on a disk or CD-ROM that you mail to the mailing address identified in Section I.C.2. These electronic submissions will be accepted in WordPerfect, or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By Mail.* Send an original and three copies of all comments, enclosures, or references, to the Water Docket, Environmental Protection Agency, Mailcode MC-4101T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, Attention Docket ID No. OW-2004-0003.

3. *By Hand Delivery or Courier.* Deliver your comments to: EPA Docket Center, (EPA/DC) EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC 20004, Attention Docket ID No. OW-2004-0003. Such deliveries are only accepted during the Docket's normal hours of operation as identified in Section I.B.2.

D. How Should I Submit CBI to the Agency?

Do not submit information that you consider to be CBI electronically to the EPA Docket Center or through EPA's electronic public docket or by e-mail. Send or deliver information identified as CBI only to the following address: U.S. Environmental Protection Agency, Mailcode 4504 T, Preparation of Vessels Intended to be Artificial Reefs, 1301 Constitution Ave, NW., Room 7114, EPA West Building, Washington, DC 20004. You may claim information that you submit to EPA as CBI by marking that information CBI (if you submit CBI on disk or CD-ROM, indicate on the outside of the disk or CD-ROM that it contains information claimed as CBI and then identify electronically within the disk or CD-ROM the specific information that is CBI). Information so marked will not be disclosed except in

accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you use a disk or CD-ROM, mark the outside of the disk or CD-ROM clearly to indicate that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult one of the persons identified in the **FOR FURTHER INFORMATION CONTACT** section.

E. What Should I Consider as I Prepare My Comments for EPA?

You may find these suggestions helpful for preparing your comments:

1. Explain your comments as clearly as possible.
2. Describe any assumptions that you used.
3. Provide any technical information and/or data you used that supports your comments.
4. Provide specific examples to illustrate your concerns.
5. Offer alternatives.
6. Make sure to submit your comments by the deadline identified.
7. To ensure proper receipt by EPA, identify the appropriate docket identification number in the subject line on the first page of your response. It would also be helpful if you provided the name, date, and **Federal Register** citation related to your comments.

II. Background and Today's Action

Options for managing obsolete and decommissioned military and commercial vessels include re-use of the vessel or parts of the vessel, recycling or scrapping, creating artificial reefs, and disposal on land or at sea. The guidance document made available today addresses one of these management options—artificial reef creation—with the intent of promoting a consistent, national approach.

An interagency workgroup, chaired by EPA, was established to develop national environmentally-based best management practices (BMPs) for the preparation of vessels to be sunk with the intention of creating artificial reefs. The workgroup was comprised of representatives from the EPA, U.S. Coast Guard, U.S. Navy, Maritime Administration (MARAD), U.S. Army Corps of Engineers, National Oceanic

and Atmospheric Administration, and the U.S. Fish and Wildlife Service. Workgroup members assisted in the drafting of various sections of the document.

This guidance is required by section 3516 of the National Defense Authorization Act for Fiscal Year 2004 (Act), which amends existing law to require that MARAD and EPA jointly develop guidance recommending environmental BMPs to be used in the preparation of vessels for use as artificial reefs. These BMPs are to serve as national guidance for Federal agencies for the preparation of vessels for use as artificial reefs. The Act provides that the BMPs are to (A) ensure that vessels prepared for use as artificial reefs "will be environmentally sound in their use as artificial reefs," (B) "promote consistent use of such practices nationwide," (C) "provide a basis for estimating the costs associated with the preparation of vessels for use as artificial reefs," and (D) include measures that will "enhance the utility of the Artificial Reefing Program of the Maritime Administration as an option for the disposal of obsolete vessels."

The guidance identifies materials or categories of materials of concern that may be present aboard vessels, indicates where these materials may be found, and describes their potential adverse impacts if released into the marine environment. The materials of concern include: fuels and oil, asbestos, polychlorinated biphenyls (PCBs), paints, debris (e.g., vessel debris, floatables, introduced material), and other materials of environmental concern (e.g., mercury, refrigerants). Because the BMPs described in the guidance are directed at the environmental concerns associated with using vessels as artificial reefs, other sources of information should also be used with regard to preparation of the vessel from a diver safety perspective or for any other potential in-water uses (e.g., breakwaters or other types of barriers).

For each material or category of material of concern identified above, the guidance provides a general performance clean-up goal and information on methods for attaining those clean-up goals in preparation of the vessel prior to sinking. The guidance also includes a description of each material of concern's shipboard use and where it may be found on a vessel, as well as its expected impacts if released into the marine environment.

The guidance describes guidelines for the preparation of vessels in a manner that are intended to ensure that the marine environment will benefit from

their use as an artificial reef. Because strategic siting is an essential component of a successful artificial reef project, the guidance also discusses reef siting.
