

related documents are available for review in the indicated office, by appointment: For Permits 1072, 1088, and 1283: Karen Hans, Protected Species Division, NOAA Fisheries, 1655 Heindon Road, Arcata, CA 95521 (ph: 707-825-5180, fax: 707-825-4840).

FOR FURTHER INFORMATION CONTACT:
Karen Hans at phone number (707 825 5180), or e-mail: karen.hans@noaa.gov

SUPPLEMENTARY INFORMATION:

Authority

Under section 3(18) of the Endangered Species Act of 1973 as amended (ESA) (16 U.S.C. 1536 *et seq.*), take is defined as “to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct”. Under section 10(a)(1)(A) of the ESA, “The Secretary may permit, under such terms and conditions as he shall prescribe- (A) any act otherwise prohibited by section 9 for scientific purposes...”. Issuance of permits and permit modifications, as required by the ESA, is based on a finding that such permits/modifications (1) are applied for in good faith, (2) would not operate to the disadvantage of the listed species which are the subject of the permits, and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NOAA Fisheries regulations governing listed fish and wildlife permits (50 CFR parts 222–226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NOAA Fisheries.

Species Covered in This Notice

This notice is relevant to the following three threatened salmonid ESUs:

Southern Oregon/Northern California Coast (SONCC) coho salmon (*Oncorhynchus kisutch*),

California Coastal (CC) Chinook salmon (*O. tshawytscha*).

Northern California (NC) steelhead (*O. mykiss*),

Renewal and Modification Requests Received

Permit 1072

The Bureau of Reclamation (BOR) has requested the renewal and modification of Permit 1072 for take of juvenile SONCC coho salmon and tissue collection from adult carcasses from these species, associated with studies assessing presence and population abundances, and genetic diversity of salmon and steelhead in the Trinity River. Permit 1072 was originally issued on May 4, 1998. The BOR has proposed to use in-stream trapping as the method of capture. The BOR has requested non-lethal take of 4650 juvenile SONCC coho salmon with an unintentional mortality of 3.0 percent of fish captured. Permit 1072 will expire on September 1, 2014.

Permit 1088

The Bureau of Land Management (BLM) has requested the renewal and modification of Permit 1088 for take of SONCC coho salmon, CC Chinook salmon, and NC steelhead associated with studies assessing presence and population abundances of salmon and steelhead in selected locations on BLM lands under the jurisdiction of the Arcata Field Office. The BLM proposes to capture juvenile and adult salmon and steelhead by in-stream traps and electrofishing, and requests take for juvenile salmon and steelhead captured during macroinvertebrate sampling. Permit 1088 was originally issued on April 24, 1998. The BLM has requested non-lethal take of up to 12,200 juvenile SONCC coho salmon with an unintentional mortality of 1.0 percent of fish handled; 20,050 juvenile CC Chinook salmon with an unintentional mortality of 1.0 percent of fish handled; and 60,400 juvenile NC steelhead with an unintentional mortality of 1.0 percent of fish handled. Permit 1088 will expire April 1, 2014.

Issuance Request Received

Permit 1283

Humboldt State University Foundation Institute for River Ecosystems (IRE) has requested the issuance of Permit 1283 for take of SONCC coho salmon, CC Chinook salmon, and NC steelhead associated with studies assessing presence and population abundances of coho salmon and steelhead in selected locations in the Mad-Redwood hydrologic unit (MR-HUC). The MR-HUC includes all anadromous streams that drain into Humboldt Bay and all streams that drain into the Pacific Ocean north to, but not

including, the Klamath River. The IRE has requested non-lethal take of up to 9,000 juvenile SONCC coho salmon with an unintentional mortality of 2.0 percent of fish handled; 30 juvenile CC Chinook salmon with an unintentional mortality of 1 fish; and 9,600 juvenile NC steelhead with an unintentional mortality of 2.0 percent of fish handled. Permit 1283 will expire January 1, 2012.

Dated: July 29, 2004.

Susan Pultz,

Acting Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

Patent and Trademark Office

Submission for OMB Review; Comment Request

The United States Patent and Trademark Office (USPTO) has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: United States Patent and Trademark Office (USPTO).

Title: United States Patent Applicant Survey.

Form Number(s): None. The surveys contained in this information collection do not have USPTO form numbers assigned to them. When the surveys are approved, they will carry the OMB Control Number and the date on which OMB's approval of the information collection expires.

Agency Approval Number: 0651-00XX.

Type of Request: New collection.

Burden: 187 hours.

Number of Respondents: 445 responses.

Avg. Hours Per Response: 7 or 30 minutes, depending on the survey.

The USPTO estimates that it takes an average of 7 minutes (0.12 hours) to complete the surveys for the independent inventors and that it takes an average of 30 minutes (0.50 hours) to complete the surveys for large domestic corporations, small to medium-size businesses, and universities and non-profit research organizations. This includes the time to gather the necessary information, respond to the surveys, and submit them to the USPTO. The USPTO believes that it takes the same amount of time to respond to the surveys, whether the

completed surveys are mailed to the USPTO or completed online.

Needs and Uses: The USPTO developed the United States Patent Applicant Survey to obtain information on customer filing intentions in order to predict future growth rates in patent applications over the next four years from patent-generating entities. The USPTO also developed this survey in response to the Senate Appropriations Report 106-404 (September 8, 2000), which directed the USPTO to "develop a workload forecast with advice from a representative sample of industry and the inventor community." There are three versions of this survey: one for large domestic corporations and small to medium-size businesses, one for universities and non-profit research organizations, and another for independent inventors. The top 209 patent-generating corporations and other large businesses, small to medium-size businesses, universities and non-profit research organizations, and independent inventors responding to these surveys will provide the USPTO with the number of filings (domestic, international, or combined) that they plan to submit, in addition to providing general feedback concerning industry trends and the survey itself. The USPTO will use this feedback to estimate future revenue flow, allocate resources, and determine quality control measures to meet filing demands.

The initial survey was reviewed and approved by OMB under OMB Control Number 0651-0038 Customer Input, Patent and Trademark Customer Surveys, the USPTO's generic customer survey clearance. However, due to the fact that the USPTO will use this survey to predict workload and revenue flow and the fact that the survey methodology has matured, the USPTO is submitting this survey separately to OMB for review and approval and not under the generic clearance.

Affected Public: Individuals or households; business or other for-profit; and not-for-profit institutions.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by any of the following methods:

E-mail: Susan.Brown@uspto.gov. Include "0651-00XX United States Patent Applicant Survey copy request" in the subject line of the message.

Fax: 703-308-7407, marked to the attention of Susan Brown.

Mail: Susan K. Brown, Records Officer, Office of the Chief Information Officer, Office of Data Architecture and

Services, Data Administration Division, U.S. Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450.

Written comments and recommendations for the proposed information collection should be sent on or before September 3, 2004, to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, 725 17th Street, NW., Washington, DC 20503.

Dated: July 29, 2004.

Susan K. Brown,

Records Officer, USPTO, Office of Data Architecture and Services, Data Administration Division.

BILLING CODE 3510-16-P

identify those persons and firms who should be notified of the recall.

Additional Information About the Request for Extension of Approval of Information Collection Requirements

Agency address: Consumer Product Safety Commission, Washington, DC 20207.

Title of information collection:

Recordkeeping Requirements for Full-Size Baby Cribs, 16 CFR 1508.10.

Type of request: Extension of approval.

Frequency of collection: Varies, depending upon volume of products manufactured, imported, or sold.

General description of respondents: Manufacturers and importers of full-size cribs.

Estimated Number of respondents: 54.

Estimated average number of responses per respondent: 1 per year.

Estimated number of responses for all respondents: 54 per year.

Estimated number of hours per response: 5.

Estimated number of hours for all respondents: 270 per year.

Estimated cost of collection for all respondents: \$6,610.

Comments: Comments on this request for extension of approval of information collection requirements should be submitted by September 3, 2004, to (1) Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for CPSC, Office of Management and Budget, Washington, DC 20503; telephone: (202) 395-7340, and (2) the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207. Comments may also be sent to the Office of the Secretary by facsimile at (301) 504-0127 or by e-mail at cpsc-os@cpsc.gov.

Copies of this request for an extension of an information collection requirement are available from Linda L. Glatz, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, DC 20207; telephone: (301) 504-7671; or by e-mail to lglatz@cpsc.gov.

Dated: July 30, 2004.

Todd A. Stevenson,

Secretary, U.S. Consumer Product Safety Commission.

BILLING CODE 6355-01-P

CONSUMER PRODUCT SAFETY COMMISSION

Notification of Request for Extension of Approval of Information Collection Requirements—Recordkeeping Requirements Under the Safety Regulations for Full-Size Cribs

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the May 18, 2004, **Federal Register** (69 FR 28123), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) to announce the agency's intention to seek an extension of approval of information collection requirements in the safety regulations for full-size cribs. 16 CFR 1500.18(a)(13) and part 1508). No comments were received in response to that notice. The Commission now announces that it has submitted to the Office of Management and Budget a request for extension of approval of that collection of information.

These regulations were issued to reduce hazards of strangulation, suffocation, pinching, bruising, laceration, and other injuries associated with full-size cribs. The regulations prescribe performance, design, and labeling requirements for full-size cribs. They also require manufacturers and importers of those products to maintain sales records for a period of three years after the manufacture or importation of full-size cribs. If any full-size cribs subject to provisions of 16 CFR 1500.18(a)(13) and Part 1508 fail to comply in a manner severe enough to warrant a recall, the required records can be used by the manufacturer or importer and by the Commission to
