

Location: Holiday Inn, One Newbury Street, Peabody, MA 01960; telephone: (978) 535-4600.

The committee will discuss whether to initiate a framework action to adjust open area days at sea allocations in 2005, to change measures to monitor or control fishing activity by vessels holding general category scallop permits, and to require potential new sea turtle protection measures and actions to address other management concerns as necessary. The Plan Development Team will also provide management advice about how the Council should respond to the recent stock assessment, which found that overfishing was occurring on the sea scallop resource. The committee may also discuss long-term planning issues for the Stock Assessment and Fishery Evaluation (SAFE) Report, the next regular framework adjustment for the 2006 fishing year, and possibly future plan amendments.

Although non-emergency issues not contained in this agenda may come before these groups for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting dates.
