

section III of the guidance that result from §§ 610.60, 610.61, and 610.62 were approved under OMB control number 0910-0338. In accordance with section 3506(c)(2)(A) of the PRA, a 60-day notice soliciting public comment on the collections of information described in section III of the guidance that result from part 660 (§§ 660.2, 660.28, 660.35, 660.45, and 660.55) published in the **Federal Register** of July 22, 2003 (68 FR 43359). The collections of information described in section X of the guidance, regarding annual reports, were approved under OMB control numbers 0910-0231 and 0910-0315. The collections of information described in section X of the guidance, regarding adverse event reporting, were approved under OMB control numbers 0910-0437 and 0910-0291.

Dated: July 27, 2004.

Jeffrey Shuren,

Assistant Commissioner for Policy.

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 2004N-0246]

Agency Emergency Processing Under Office of Management and Budget Review; Experimental Study of Petitioned Health Claims on Glucosamine and Chondroitin Sulfate; Withdrawal

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; withdrawal.

SUMMARY: The Food and Drug Administration (FDA) is withdrawing a notice that published in the **Federal Register** of June 3, 2004 (69 FR 31395).

DATES: This notice is withdrawn on August 5, 2004.

FOR FURTHER INFORMATION CONTACT: May D. Nelson, Center for Food Safety and Applied Nutrition (HFS-024), Food and Drug Administration, 5100 Paint Branch Pkwy., College Park, MD 20740, 301-436-1722.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of June 3, 2004, FDA

published a notice informing interested parties that the proposed collection of information entitled “Experimental Study of Petitioned Health Claims on Glucosamine and Chondroitin Sulfate” had been submitted to the Office of Management and Budget (OMB) for emergency processing under section 3507(j) of the Paperwork Reduction Act of 1995 (44 U.S.C. 3507(j) and 5 CFR 1320.13). The notice contains a number of errors. In addition, we are reevaluating the design and objective of the study. Therefore, we are withdrawing both the notice itself and the request for OMB approval of the proposed collection of information.

Dated: July 29, 2004.

William K. Hubbard,

Associate Commissioner for Policy and Planning.

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Proposed Data Collection; Comment Request; California Health Interview Survey 2005

SUMMARY: In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the National Institute of Health (NIH), National Cancer Institute (NCI) will public periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection: Title: California Health Interview Survey (CHIS) 2005 Cancer Control Module (CCM). *Type of Information Collection Request:* New. *Need and Use of Information Collection:* The NCI has sponsored two Cancer Control Modules to the California Health Interview Survey (CHIS), and will be sponsoring a third to be administered in 2005.

The CHIS is a telephone survey designed to provide population-based, standardized health-related data to assess California’s progress in meeting Healthy People 2010 objectives for the

nation and the state. The CHIS sample is designed to provide statistically reliable estimates statewide, for California counties, and for California’s ethnically and racially diverse population. Initiated by the UCLA Center for Health Policy Research, the California Department of Health Services, and the California Public Health Institutes, the survey is funded by a number of public and private sources. It was first administered in 2001 to 55,428 adults and subsequently in 2003 to 42,043 adults. These adults are a representative sample of California’s non-institutional population living in households.

CHIS 2005, the third bi-annual survey, is planned for administration to 55,000 adult Californians. The cancer control module, which is similar to that administered in CHIS 2001 and CHIS 2003, will allow NCI to examine trends in breast cancer screening and diagnosis, as well as to study other cancer-related topics, such as, diet, physical activity and obesity.

Because California is the most populous and the most racially and ethnically diverse state in the nation, the CHIS 2005 sample will yield adequate numbers of respondents in key ethnic and racial groups, including African Americans, Latinos, Asians, and American Indian/Alaska Natives. The Latino group will include large numbers of Mexican-origin, Central Americans, South Americans, and other Latino subgroups; the Asian group will include large numbers of respondents in the Chinese, Filipino, Japanese, Vietnamese, and Korean subgroups. NCI will compare the CHIS and National Health Interview Survey (NHIS) data in order to conduct comparative analyses and better estimate cancer risk factors and screening among racial/ethnic minority populations. The CHIS sample size also permits NCI to create estimates for ethnic subdomains of the population, for which NHIS has insufficient numbers for analysis.

Frequency of Response: One-time. *Affected public:* Individuals or households. *Types of Respondents:* U.S. adults (persons 18 years of age and older). The annual reporting burden is as follows.

TABLE A.—ANNUALIZED BURDEN ESTIMATES FOR CHIS 2005 DATA COLLECTION

Data collection	Estimated number of respondents	Frequency of response	Average time per response	Annual hour burden
Adult Core	55,000	1	.42	23,100
CCTM	55,000	1	.08	4,400
