Office of the Secretary

Funding Opportunity Title: Safe and Bright Futures for Children Initiative

ANNOUNCEMENT TYPE: Initial.

CFDA NUMBER: 93.990.

DATES: Applications are due no later than September 9, 2004.

SUMMARY: This notice announces the availability of fiscal year (FY) 2004 grant funds for the Safe and Bright Futures for Children Initiative—a program to diminish the damaging effects of domestic violence on children and adolescents and to stop the cycles of abuse and intentional injury.

Approximately \$2.2 million in funding is available on a competitive basis for a maximum of up to 30 grants for Phase One of the Safe and Bright Futures for Children Initiative. Phase One consists of 2 years strategic planning (as outlined in Application and Submission Information—Section IV). It is expected that the first year award will begin on or about September 30, 2004 and will be for a 12-month budget period. The second year award will require a non-competing continuation application and be made on or about September 30, 2005, depending on grantee performance and availability of funds and be for a 12-month budget period. Each grantee will be funded approximately \$ 75,000 each year of the 2-year project period. Applicants must demonstrate direct experience with domestic violence prevention or show ability to partner with relevant domestic violence prevention community agencies. Phase Two—Safe and Bright Futures for Children Implementation Grants—will be competitively awarded, under a separate announcement, to approximately 8 of the Phase One planning grantees in FY 2006. It is anticipated that approximately \$500,000 a year for each of the three years, depending on availability of funds, will be awarded. Implementation plans, as developed in the planning years would be submitted as a competing application for objective competitive peer review; implementation (continuation) funding will be contingent on peer review approval, score, and award preferences criteria.

I. Funding Opportunity Description

The Office of Public Health and Science (OPHS) of the Department of Health and Human Services (DHHS) announces the availability of funds for FY 2004 and requests applications for grants for Phase One of the Safe and Bright Futures for Children Initiative—a program to diminish the damaging effects of domestic violence on children and adolescents and to stop the cycles of abuse and intentional injury.

The OPHS is under the direction of the Assistant Secretary for Health (ASH), who serves as the Senior Advisor on public health and science issues to the Secretary of the Department of Health and Human Services. The Office serves as the focal point for leadership

and coordination across the Department in public health and science, provides direction to program offices within OPHS; and provides advice and counsel on public health and science issues to the Secretary.

The prosperity of our nation rests upon the health of our children. Accordingly, securing a bright future must begin with ensuring the health and safety of our children. Of the many threats to their well being, one of the most devastating is the trauma experienced by witnessing parent conflict and the violation of safety and security in the home. Domestic violence is also a generational problem that perpetuates a dangerous cycle of both abusers and victims of abuse. As such, it is important to recognize that the primacy of safety first for children relies on providing safety and assistance to the non-abusing parent or primary caregiver, in ending violence in the home. Providing safety and preventive or intervention services to the non-abusing caregiver(s) and teaching children and adolescents by example that it is unacceptable to resolve the problems of life by violent means is essential for their well-being.

Too often children who reside in homes where domestic violence occurs are not identified; when they are, they do not receive the necessary and appropriate help, either related to the trauma surrounding the precipitating event or with regard to long term follow-up and follow-through needs. The systems of support for battered parents/caregivers and the systems of accountability for those perpetrating interpersonal violence are often not well geared for addressing the developmental, social, emotional, or behavioral needs of children or adolescents. New promising approaches for working with children exposed to violence and their parents/caregivers are emerging. This initiative seeks to encourage communities to plan for, develop, implement and sustain a coordinated system of prevention, intervention, treatment, and follow-through services for children who have witnessed or been exposed to domestic violence and their families.

The Safe and Bright Futures for Children Initiative is a multi-agency collaboration within the DHHS which builds on the President's existing efforts to combat violence against women and families. Resources will be competitively available to support the implementation of projects that will become models of community prevention and intervention for children/adolescent who are witnesses of or those exposed to domestic
