

Services on a broad range of topics relating to programs, services, and supports for persons with intellectual disabilities. The Committee, by Executive Order, is responsible for evaluating the adequacy of current practices in programs, services and supports for persons with intellectual disabilities, and for reviewing legislative proposals that impact the quality of life that is experienced by citizens with intellectual disabilities and their families.

Dated: August 2, 2004.

Sally Atwater,

Executive Director, President's Committee for People with Intellectual Disabilities

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Development of Plasma Standards; Public Workshop

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of public workshop.

The Food and Drug Administration (FDA) is announcing a public workshop entitled "Development of Plasma Standards." A major objective of the workshop is to assist FDA in the development of plasma standards that will address concerns encountered over the years with the preparation, storage, shipment, and use of plasma for both transfusion and the manufacture of blood products such as Factor VIII and Immune Globulin Intravenous.

Date and Time: The 2-day public workshop will be held on August 31, 2004, from 8:40 a.m. to 4:45 p.m., and on September 1, 2004, from 9 a.m. to 12:15 p.m.

Location: The public workshop will be held at the National Institutes of Health (NIH), Lister Hill Center, Bldg. 38A, 8800 Rockville Pike, Bethesda, MD 20894.

The NIH campus is accessible via the Washington, DC Metro Transit System, Red Line, at the Medical Center Station. The Lister Hill Center is a short walk from the metro station, or you may take a shuttle bus that runs from the metro station to the various buildings on the campus. Because of security measures, visitors' parking is extremely limited and use of private vehicles may cause significant delays in entering the campus. Additionally, you will be required to show a photo ID upon entry to the campus and the Lister Hill Center.

Contact Person: Joseph Wilczek, Center for Biologics Evaluation and Research (HFM-302), Food and Drug Administration, 1401 Rockville Pike, suite 200N, Rockville, MD 20852-1448, 301-827-6129, FAX: 301-827-2843, e-mail: wilczek@cber.fda.gov.

Registration: Mail, fax, or e-mail the registration information (including name, title, firm name, address, telephone, and fax number) to Joseph Wilczek (see *Contact Person*) by August 17, 2004. Registration at the site will be done on a space available basis on the days of the workshop, beginning at 7:30 a.m. Because seating is limited, we recommend early registration. There is no registration fee for the workshop. If you need special accommodations due to a disability, please contact Joseph Wilczek at least 7 days in advance.

SUPPLEMENTARY INFORMATION: FDA is sponsoring a 2-day public workshop on plasma standards. A major objective of the workshop is to gather information on current industry practices that are in place for the manufacture of plasma, including information on the following issues and topics:

- What are appropriate freezing and storage temperatures for the components?
- What is the appropriate time to freezing?
- Should freezing and storage conditions be dependent on the final product?
- What should the recovered plasma component be called?
- What should be the expiration dating period for recovered plasma?
- Should recovered plasma be distinguished from Source Plasma? If so, how?

Following the workshop, FDA intends to develop standards for the preparation, labeling, storage, and shipping of non-cellular blood components for transfusion and for further manufacture to ensure the safety, purity, and potency of the products.

Transcripts: Transcripts of the public workshop may be requested in writing from the Freedom of Information Office (HFI-35), Food and Drug Administration, 5600 Fishers Lane, rm. 12A-16, Rockville, MD 20857, approximately 15 working days after the public workshop at a cost of 10 cents per page. In addition, the transcript will be placed on FDA's Internet at <http://www.fda.gov/cber/minutes/workshop-min.htm>.

Dated: August 2, 2004.

Jeffrey Shuren,

Assistant Commissioner for Policy.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered Species Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications.

SUMMARY: The following applicants have applied for a scientific research permit to conduct certain activities with endangered species pursuant to section 10(a)(1)(A) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*). The U.S. Fish and Wildlife Service ("we") solicits review and comment from local, State, and Federal agencies, and the public on the following permit requests.

DATES: Comments on these permit applications must be received on or before September 8, 2004.

ADDRESSES: Written data or comments should be submitted to the U.S. Fish and Wildlife Service, Chief, Endangered Species, Ecological Services, 911 NE, 11th Avenue, Portland, Oregon 97232-4181 (fax: 503-231-6243). Please refer to the respective permit number for each application when submitting comments. All comments received, including names and addresses, will become part of the official administrative record and may be made available to the public.

FOR FURTHER INFORMATION CONTACT: Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents within 30 days of the date of publication of this notice to the address above (telephone: 503-231-2063). Please refer to the respective permit number for each application when requesting copies of documents.

SUPPLEMENTARY INFORMATION:

Permit No. TE-088556

Applicant: Deborah Leonard, Santee, California.

The applicant requests a permit to take (survey by pursuit) the Quino checkerspot butterfly (*Euphydryas editha quino*) in conjunction with surveys throughout the range of the species in California for the purpose of enhancing its survival.

Permit No. TE-089571

Applicant: Damon B. Corley, Encinitas, California.

The applicant requests a permit to take (capture and collect and sacrifice)
