SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans the continuing information collection for the 2004 through 2006 Information and Communication Technology Survey (ICTS). The annual survey collects industry-level data for two categories of non-capitalized expenses (purchases; and, operating leases and rental payments) for four types of ICT equipment and software (computers and peripheral equipment; ICT equipment, excluding computers and peripherals; electromedical and electrotherapeutic apparatus; and, computer software, including payroll associated with software development). Only domestic, private, non-farm employer companies are included in the survey.

The Bureau of Economic Analysis (BEA), Federal Reserve Board, Bureau of Labor Statistics and industry analysts need these data to evaluate productivity and economic growth prospects. In addition, the ICTS provides improved source data significant to the BEA's investment component of Gross Domestic Product, capital stock estimates, and capital flow tables. Changes from the previous ICTS are the collection of capital expenditures data for the four types of ICT equipment and software cited above, and the incorporation of the 2002 North American Industry Classification System (NAICS) into the ICTS.

Capital expenditures data will only be collected for computers and peripheral equipment; ICT equipment, excluding computers and peripherals;

electromedical and electrotherapeutic apparatus; and, computer software, including payroll associated with software development.

Last year's ICTS data were collected on the 1997 NAICS basis. Beginning with the 2004 ICTS, we will collect and publish data based on the 2002 NAICS. Industries in the survey will be comprised of 3-digit and selected 4-digit 2002 NAICS codes.

II. Method of Collection

The Census Bureau will use mail out/mail back survey forms to collect data. Employer companies will be mailed one of three forms based on their diversity of operations and number of industries with payroll. Companies that operate in only one industry will receive an ICT-1 (S) form. Companies that operate in more than one but less than nine industries will receive an ICT-1 (M) form. And, companies that operate in nine or more industries will receive an ICT-1 (L). Respondent companies are permitted to respond via facsimile machine to our toll-free number. Companies will be asked to respond to the survey within 30 days of the initial mailing. Letters and/or telephone calls encouraging participation will be directed to companies that have not responded by the designated time.

III. Data

OMB Number: 0607-0909.

Form Number: ICT-1 (S), ICT-1 (M), ICT-1 (L).

Type of Review: Regular Review.

Affected Public: Business or other for-profit organizations, non-profit institutions, small businesses and organizations.
