Proposed Establishment of Class E Airspace; Jonesville, VA

AGENCY: Federal Aviation Administration (FAA), DOT.

The area would be depicted on aeronautical charts for pilot reference.

The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish Class E airspace area at Jonesville, VA. The development of a SIAP to serve flights operating IFR into Lee County Airport makes this action necessary. Controlled airspace extending upward from 700 feet AGL is needed to accommodate aircraft using the SIAP. Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface are published in Paragraph 6005 of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that would only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Regulation of Fuel and Fuel Additives: Extension of California Enforcement Exemptions for Reformulated Gasoline to California Phase 3 Gasoline

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: We are proposing to exempt refiners, importers, and blenders of gasoline subject to the State of California's Phase 3 reformulated gasoline (CaRFG3) regulations from certain enforcement provisions in the Federal reformulated gasoline (RFG) regulations. We are proposing this action because we believe that gasoline complying with the CaRFG3 regulations will provide emissions benefits equivalent to Federal Phase II RFG and because California's compliance and

enforcement program will in practice be sufficiently rigorous to assure that the standards are met. Since the Federal RFG program began in 1995, California refiners, importers and blenders have been continuously exempted from certain enforcement-related requirements such as recordkeeping and reporting, and certain sampling and testing requirements. This proposal would extend those exemptions, which are applicable to California Phase 2 gasoline, to CaRFG3. This proposal also restores the definition of "California gasoline" which was erroneously deleted.
