DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for

clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: School Enrollment Report.

Form Number(s): P–4.

Agency Approval Number: 0607–0459.

Type of Request: Extension of a currently approved collection.

Burden: 15 hours.

Number of Respondents: 30.

Average Hours Per Response: 30 minutes.

Needs and Uses: The Census Bureau requests an extension of the current Office of Management and Budget clearance of the School Enrollment Report, P–4. Collection of school enrollment data is necessary to produce annual estimates of the population of states for application to current Federal programs. Each year, in the spring, the Census Bureau sends the School Enrollment Report, P–4 form, to 30 state departments of education. The remaining states publish reports early in the year and we obtain those in our Census Bureau library. We request fall public and nonpublic school enrollment by grade for the state and selected counties in 24 of the states. In six states we request year end enrollment. Many of the 30 departments of education will eventually publish reports containing enrollment figures, but not in time to use in our estimates.

School enrollment data are used by the Census Bureau to estimate state population by age and sex. The Census Bureau's population estimates are regularly used by dozens of Federal agencies for allocating Federal program funds, as bases for rates of occurrence, and as input for Federal surveys. The estimates are also used by state and local governments, businesses, and the public for planning and other informational uses. Failure to collect the enrollment information would seriously damage the Census Bureau's ability to produce accurate current population estimates for states as well as for counties and smaller areas whose current population levels are tied into the state estimates totals.

Affected Public: State, local, or tribal government.

Frequency: Annually.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Sections 181 and 182.

OMB Desk Officer: Susan Schechter, (202) 395–5103.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance

Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 or via the Internet at dhynek@doc.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

NOAA operates meteorological satellite imagery transmission systems

whose data are available worldwide. Any user can establish a ground station for receiving the data without prior consent from NOAA. The surveying of customers allows NOAA to learn about who uses the data, how it is used, what equipment is used, the location of the equipment, and similar subjects. This information is used to help determine the possible impact of signal or data changes, to identify users for future contacts, and to annually report to the World Meteorological Organization on the geographic location and capabilities of known receiving stations.

II. Method of Collection

People accessing the NOAA Satellite and Information System (NOAASIS) Web site for operational information are presented with an opportunity to voluntarily fill out an electronic user survey. Additionally, people contacting NOAA in a way that indicates that they may operate a satellite receiving station for acquiring NOAA data are informed that an electronic survey is available on the NOAA Web site that they can voluntarily complete.
