Individuals with speech or hearing impairments may access this telephone number through TTY by calling the toll-free Federal Information Relay Service at (800) 877-8339.

SUPPLEMENTARY INFORMATION:

I. Background

On October 21, 2003 (68 FR 60178), HUD published a NOFA announcing the availability of \$574 in FY2003 funds for the HOPE VI Program. Of this amount, approximately \$447.8 million was made available for the HOPE VI Revitalization Program and \$40 million for the HOPE VI Demolition Program. The remaining funds were made available for other purposes including Neighborhood Networks, technical assistance and Housing Choice Voucher Assistance.

Two technical corrections were subsequently published for the October 21, 2003, NOFA. The first was published on October 24, 2003 (68 FR 61044), and corrected two typographical errors contained in the NOFA concerning application due dates. The second technical correction, which was published on December 9, 2003 (68 FR 68644), notified applicants of the government-wide requirement that all applicants for Federal grants and cooperative agreements must provide a Dun and Bradstreet Data Universal Numbering System (DUNS) number with their applications, and also made several other corrections to the NOFA.

II. This Notice

This notice announces the availability of approximately an additional \$20 million in FY2003 funds for HOPE VI Demolition Grants, and reopens the due date for a period of 30 days for submission of Demolition Grant applications under the October 21, 2003, NOFA. HUD will award the additional FY2003 funds in accordance with the application and submission requirements contained in the October 21, 2003, NOFA, as corrected by the December 9, 2003, technical correction. Applicants must refer to the October 21, 2003, NOFA and the December 9, 2003, technical correction for information regarding application submission procedures, application thresholds, application and grant limitations, the application selection process, post award requirements, and other requirements applicable to the HOPE VI Demolition Program.

A copy of the October 21, 2003, NOFA may be downloaded at: http://www.access.gpo.gov/su_docs/fedreg/a031021c.html.

A copy of the December 9, 2003, technical correction to the HOPE VI NOFA may be downloaded at: http://www.access.gpo.gov/su_docs/fedreg/a031209c.html.

An applicant that submitted an application for HOPE VI Demolition grants funding by the original February 18, 2004, deadline, but that was not selected for a grant award solely because the applicant had not received demolition approval by the application deadline is not required to submit a new application. The applicant need only submit evidence that the application's targeted units that have been approved by HUD for demolition. Such evidence must be submitted in accordance with the application submission requirements, and must be received by HUD by the application deadline date. All other applicants must submit a complete application, in accordance with the requirements described in the October 21, 2003, NOFA and the December 9, 2003, technical correction.

Dated: August 13, 2004.

Michael Liu,

Assistant Secretary for Public and Indian Housing.

[FR Doc. 04-18942 Filed 8-13-04; 2:21 pm]

BILLING CODE 4210-33-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WY-060-1320-EL; WYW150318]

Notice of Availability of the Record of Decision for the South Powder River Basin Coal Final Environmental Impact Statement, Little Thunder Lease by Application Tract, Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, the Bureau of Land Management (BLM) announces the availability of the Record of Decision (ROD) for South Powder River Basin Coal Final Environmental Impact Statement (FEIS); Little Thunder Lease by Application Tract.

ADDRESSES: The document will be available electronically on the following Web site: <http://www.wy.blm.gov/>. Copies of the ROD are available for public inspection at the following BLM office locations:

- Bureau of Land Management, Wyoming State Office, 5353 Yellowstone Road, Cheyenne, Wyoming 82009.

- Bureau of Land Management, Casper Field Office, 2987 Prospector Drive, Casper, Wyoming 82604.

FOR FURTHER INFORMATION CONTACT: Mr. Bob Janssen, Wyoming Coal Coordinator, at (307) 775-6206 or Ms. Julie Weaver, Land Law Examiner, at (307) 775-6260. Both Mr. Janssen's and Ms. Weaver's offices are located at the BLM Wyoming State Office, 5353 Yellowstone Road, Cheyenne, Wyoming 82009.

SUPPLEMENTARY INFORMATION: As stated in the FEIS, a ROD will be issued for each of the five Federal coal tracts considered for leasing in the South Powder River Coal FEIS. The ROD covered by this Notice of Availability is for coal tract Little Thunder (WYW150318) and addresses leasing an estimated 695.3 million tons of in-place Federal coal administered by the BLM Casper Field Office underlying approximately 5,083.50 acres in Campbell County, Wyoming. This tract includes 1,100.7 acres of Thunder Basin National Grasslands.

Because the Assistant Secretary of the Interior, Lands and Minerals Management has concurred in this decision, it is not subject to appeal to the Interior Board of Land Appeals, as provided in 43 CFR part 4. This decision is the final action of the Department of the Interior.

Robert A. Bennett,

State Director.

BILLING CODE 4310-22-M

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of new information collection (1010-NEW).

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), MMS is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns the paperwork requirements in the regulations under 30 CFR part 250, subpart I, Platforms and Structures.

DATES: Submit written comments by October 18, 2004.

ADDRESSES: The ability to submit comments is now available through MMS's Public Connect on-line commenting system and is the preferred method for commenting. Interested parties may submit comments on-line at <https://ocscconnect.mms.gov>. From the Public Connect "Welcome" screen, you will be able to either search for Information Collection 1010-NEW or select it from the "Projects Open for Comment" menu.

Alternatively, interested parties may mail or hand-carry comments to the Department of the Interior, Minerals Management Service, Mail Stop 4024, 381 Elden Street, Herndon, Virginia 20170-4817; Attention: Rules Processing Team (RPT). Please reference "Information Collection 1010-NEW" in your comments and include your name and return address. **NOTE:** We are no longer accepting comments sent via e-mail.

FOR FURTHER INFORMATION CONTACT:

Cheryl Blundon, Rules Processing Team at (703) 787-1600. You may also contact Cheryl Blundon to obtain a copy, at no cost, of the regulations and the Notice to Lessees (NTL's) that will request the subject collection of information.

SUPPLEMENTARY INFORMATION:

Title: Notice to Lessees, Assessment of Existing OCS Platforms.

OMB Control Number: 1010-NEW.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

Specifically, the OCS Lands Act (43 U.S.C. 1356) requires the issuance of "* * * regulations which require that any vessel, rig, platform, or other vehicle or structure * * * (2) which is used for activities pursuant to this subchapter, comply * * * with such minimum standards of design, construction, alteration, and repair as the Secretary * * * establishes * * *."

The OCS Lands Act (43 U.S.C. 1332(6)) also states, "operations in the [O]uter Continental Shelf should be conducted in a safe manner * * * to prevent or minimize the likelihood of * * * physical obstruction to other users of the water or subsoil and seabed, or other occurrences which may cause damage to the environment or to property, or endanger life or health." These authorities and responsibilities are among those delegated to MMS under which we issue regulations to ensure that operations in the OCS will meet statutory requirements; provide for safety and protection of the environment; and result in diligent exploration, development, and production of OCS leases. This information collection request addresses the regulations at 30 CFR part 250, subpart I, Platforms and Structures.

The MMS OCS Regions use the information submitted under subpart I to determine the structural integrity of all offshore structures and ensure that such integrity will be maintained throughout the useful life of these structures. We use the information to ascertain, on a case-by-case basis, that the platforms and structures are structurally sound and safe for their intended use to ensure safety of personnel and pollution prevention.

Currently, lessees are required to conduct these platform assessments and evaluations (API RP 2A-WSD, 21st edition, incorporated by reference April 21, 2003 (68 FR 193521), into 30 CFR 250.900(g)), but the regulations under Subpart I do not require lessees to submit the results to MMS. Therefore, with this information collection request, MMS is requesting the submission of the results of platform assessments and evaluations. Upon OMB approval of this collection, MMS will issue an NTL that requests lessees to submit their results of platform assessments and evaluations on a voluntary basis. MMS will use this information to verify that lessees have conducted assessments of existing platforms in an appropriate and timely manner to evaluate the risk of allowing existing platforms to finish their originally approved purposes; more specifically, we will use the information submitted through the NTL to:

- Verify that existing platforms comply with design criteria in accordance to API RP 2A-WSD (21st edition), "Recommended Practice for Planning, Designing, and Constructing Fixed Offshore Platforms—Working Stress Design," and to evaluate the risk of allowing existing platforms to finish their originally approved purpose.
- Review reports that relate to framing patterns, soil data, exposure

category, initiator data, assessment screening, design level analysis, and ultimate strength analysis.

- Review mitigation plans and platform applications for platforms that fail the ultimate strength analysis.

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR 250.196, "Data and information to be made available to the public." No items of a sensitive nature are collected. Submissions are voluntary.

Frequency: Submission occurs periodically based on assessment.

Estimated Number and Description of Respondents: Approximately 130 Federal OCS oil and gas or sulphur lessees.

Estimated Reporting and Recordkeeping "Hour" Burden: We estimate that the reporting burden for this collection is 154,400 burden hours. The oil and gas industry and MMS recognize that some existing platforms may not comply with the design criteria required for new platforms. Design criteria were developed to provide a way to evaluate the risk of allowing existing platforms to finish their originally approved purpose. The following discussion details the individual components and the respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

- MMS estimates that 3,400 platforms in the Gulf of Mexico (GOM) OCS will require submittal of framing patterns, soil data, exposure category, initiator data, and the assessment screening and report. Estimate 16 hours per submittal. Total burden = 54,400 hours.

- MMS estimates that 800 platforms will fail the assessment screening and require a design level analysis and report. Estimate 50 hours per submittal. Total burden = 40,000 hours.

- MMS estimates that 400 platforms will fail the design level analysis and require an ultimate strength analysis and report. Estimate 100 hours per submittal. Total burden = 40,000 hours.

- MMS estimates that 200 platforms will fail the ultimate strength analysis and require mitigation and a platform application. Estimate 100 hours per submittal. Total burden = 20,000 hours.

- Program = 154,400 hours.

Estimated Reporting and Recordkeeping "Non-Hour Cost"

Burden: We have identified no “non-hour cost” burdens.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *”.

Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the “non-hour cost” burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Policy: MMS’s practice is to make comments, including names and addresses of respondents, available for public review during regular business hours. If you wish your name and/or address to be withheld, you must state this prominently at the beginning of your comment. MMS will honor this request to the extent allowable by law; however, anonymous comments will not be considered. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

MMS Information Collection Clearance Officer: Arlene Bajusz (202) 208-7744.

Dated: August 10, 2004.

E.P. Danenberger,

Chief, Engineering and Operations Division.

BILLING CODE 4310-MR-P

INTERNATIONAL TRADE COMMISSION

[Inv. No. 337-TA-512]

In the Matter of Certain Light-Emitting Diodes and Products Containing Same; Notice of Commission Decision Not To Review an Initial Determination Amending the Complaint and Notice of Investigation

AGENCY: International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review the presiding administrative law judge’s (“ALJ’s”) initial determination (“ID”) (Order No. 6) amending the complaint and notice of investigation to add an additional patent.

FOR FURTHER INFORMATION CONTACT: Wayne Herrington, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 205-3090. Copies of the ALJ’s ID and all other nonconfidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server

(<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission’s electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on 202-205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on June 10, 2004, based on a complaint filed by OSRAM GmbH and OSRAM Opto Semiconductors GmbH, both of Germany. 69 FR 32609 (June 10, 2004). The complaint, as supplemented, alleged violations of section 337 of the Tariff Act of 1930 in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain light-emitting diodes and products containing same by reason of infringement of claims 1, 3, 6, 7, and 10-13 of U.S. Patent No. 6,066,861; claims 1, 3, 6, 7, 10-13, and 15 of U.S. Patent No. 6,245,259; claims 1-2, 6-7, 11-12, and 15 of U.S. Patent No. 6,277,301; claims 1, 5-10, and 13-16 of U.S. Patent No. 6,376,902; claims 1 and 5-8 of U.S. Patent No. 6,469,321; claims 1, 5-8, 10-13, and 16-19 of U.S. Patent No. 6,573,580; claim 4 of U.S. Patent No. 6,576,930; claims 2-5, 7, and 10 of U.S. Patent No. 6,592,780; and claims 1, 3, 6-7, 10, 12-15, 17, and 21 of U.S. Patent No. 6,613,247. The complaint and notice of investigation named three respondents, including respondent Dominant Semiconductors Sdn. Bhd. (“Dominant”).

On July 2, 2004, complainants filed a motion pursuant to Commission rule 210.14 to amend the complaint and notice of investigation to assert claims 1-3 and 5 of U.S. Patent No. 6,716,673 against Dominant, representing that Dominant did not oppose the motion. The Commission investigative attorney supported the motion. On July 21, 2004, the ALJ issued the subject ID granting complainants’ motion. No petitions for review of the ID were filed.

The authority for the Commission’s determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. § 1337), and in section 210.42 of the Commission’s Rules of Practice and Procedure (19 CFR 210.42).

Issued: August 11, 2004.

By order of the Commission.

Marilyn R. Abbott,

Secretary to the Commission.
