

participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

Florida Gas Transmission Company; Notice of Extension of Time

August 16, 2004.

On August 13, 2004, Florida Gas Transmission Company (FGT) filed a motion for an extension of time for the implementation of the within-the-path capacity allocation and the outside-the-path segmentation requirements (637 requirements) of the Commission's Order issued February 18, 2004, in the above-docketed proceeding. FGT filed a Settlement Agreement (Settlement) in Docket No. RP04-12-000 contemporaneously with this extension request. In its motion, FGT states that an integral part of this Settlement consists of the Settling Parties Agreement on the specific, detailed terms and conditions for the implementation of the within-the-path priority and outside-the-path segmenting. FGT also states that unless the Commission grants additional time for FGT to implement the 637 requirements, FGT will either be required to implement its own version of the 637 requirements or to implement a portion of the Settlement's provisions prior to its approval by the Commission and prior to the Settlement's effective date. The motion further states that FGT is authorized to state that all active parties support the request for more time.

Upon consideration, notice is hereby given that an extension of time for FGT to comply with the Commission's February 18, 2004 Order is granted to and including 30 days after the Commission acts on the Settlement filed in Docket No. RP04-12-000.
