**8. New England Power Pool**

[Docket Nos. OA97-237-017; ER97-1079-008; ER97-3574-007; OA97-608-007; ER97-4421-007; and ER98-499-006]

Take notice that on July 30, 2004, an informational filing was made by the New England Power Pool (NEPOOL) Participants Committee relating to rate surcharges determined in accordance with formula rates of the Restated NEPOOL Open Access Transmission Tariff. NEPOOL Participants Committee states that these materials describe the transmission charges that are in effect for the twelve month period commencing June 1, 2004 (the 2004/2005 NEPOOL Rate Year).

NEPOOL Participants Committee states that copies of these materials were sent to the NEPOOL Participants and the New England state governors and regulatory commissions.

*Comment Date:* 5 p.m. eastern time on August 24, 2004.

**Standard Paragraph**

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the

appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). **SUPPLEMENTARY INFORMATION:** EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 25, 2004 (69 FR 29718), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID Number OECA-2004-0009, which is available for public viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket and Information Center Docket is: (202) 566-1752. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of

the contents of the public docket, and to access those documents in the public docket that are available electronically. When in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket.

Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

*Title:* NSPS for Incinerators (40 CFR part 60, subpart E) (Renewal).

*Abstract:* The New Source Performance Standards (NSPS) for Incinerators were promulgated on December 23, 1971 (36 FR 24877). These standards apply to incinerators that charge more than 45 metric tons per day rate (50 tons per day) of solid waste, for the purpose of reducing the volume of the waste after promulgation of NSPS subpart E in 1971. Solid waste is defined as refuse that is more than 50 percent municipal type wastes. This information is being collected to assure compliance with 40 CFR part 60 subpart E.

Owners or operators of the affected facilities described must make one-time-only notifications including: (1) Notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate; (2) notification of the initial performance test, including information necessary to determine the conditions of the performance test; and (3) performance test measurements and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the

operation of an affected facility, or any period during which the monitoring system is inoperative. Monitoring requirements specific to NSPS subpart E provide information on daily charging rates and hours of operation.

The control of emissions of particulate matter from municipal incinerators requires not only the installation of properly designed equipment, but also the operation and maintenance of that equipment. Certain records and reports are necessary to enable the Administrator to: (1) Identify existing, new, and reconstructed sources subject to the standards; (2) determine a source's initial capability to comply with the emission standard; and (3) ensure that the standards are being achieved. Affected facilities must also submit semiannual reports. These records and reports are required under subpart E and the General Provisions of 40 CFR part 60.

Owners or operators of affected facilities must provide certain notifications and reports on startup and initial performance. Owners or operators of affected facilities also must record certain operation and maintenance activities and retain files with this information for at least two years following the date of such measurements, maintenance reports, and records.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 51 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:*

Owners/operators of incinerators.

*Estimated Number of Respondents:* 82.

*Frequency of Response:* Initially.

*Estimated Total Annual Hour Burden:* 8,393 hours.

*Estimated Total Annual Costs:*

\$735,926, which includes \$0 annualized capital/startup costs, \$205,000 annual O&M costs, and \$530,926 annual labor costs.

*Changes in the Estimates:* There is a decrease of 151 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease in the hourly burden from the most recently approved ICR is due in part to a decrease in the number of sources.

Dated: August 11, 2004.
