II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the PCX included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The PCX has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change Purpose

The Exchange is proposing to amend PCXE Rule 2.4(b)–(c) to allow the Exchange to waive the examination requirement for an ETP applicant if the Exchange believes the applicant is qualified based upon the applicant's industry experience, the type of registration requested, the previous history of the applicant with the PCX and any other examinations the applicant has successfully completed that may be considered acceptable substitutes. The Exchange is also proposing to make certain technical changes to PCXE Rule 2.4(b)(10) so that the Rule for ETP applicants is similar to the existing rule for individuals who apply for an Options Trading Permit ("OTP"). The Exchange believes that the proposed changes will bring the PCX examination requirements up to date and make the PCX's requirements similar to those at other SROs.³ The Exchange notes that the proposed waiver is similar to one recently approved by the Commission for individuals who apply for an OTP at the PCX.⁴

Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁵ in general, and furthers the objectives of Section 6(b)(5),⁶ in particular, because it is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments and perfect the mechanisms of a free and open

market and to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act,⁷ and subparagraph (f)(6) of Rule 19b–4,⁸ thereunder because it does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

The PCX has requested that the Commission waive the 30-day operative delay so that the proposed rule change will become immediately effective upon filing. The Commission believes waiving the 30-day operative delay is consistent with the protection of investors and the public interest. The Commission believes that accelerating the operative date will permit the Exchange to implement the changes to its examination requirements without undue delay. The Commission notes that it previously approved a similar proposed rule change for options trading on PCX and therefore the instant proposed rule change should not raise any new regulatory issues.⁹ Accordingly, the Commission designates the proposal to be effective

and operative upon filing with the Commission.¹⁰

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

To help the Commission process and review your comments more efficiently, please use only one method.
