SUPPLEMENTARY INFORMATION: The RMP/ROD was developed with broad public participation through a 3-year collaborative planning process. This RMP/ROD addresses management on approximately 1.2 million acres of public land in the planning area. The RMP/ROD is designed to achieve or maintain objectives that were identified in the legislation that created the NCA and wilderness areas or developed through the planning process. The RMP/ROD includes a series of management actions to meet the desired resource conditions for upland and riparian vegetation, wildlife habitats, cultural and visual resources, livestock grazing and recreation.

The approved RMP is essentially the same as Alternative D in the Proposed RMP/Final Environmental Impact Statement (PRMP/FEIS), published in September 2003. BLM received eight protests to the PRMP/FEIS. No inconsistencies with State or local plans, policies or programs were identified during the Governor's consistency review of the PRMP/FEIS. As a result, only minor editorial modifications were made in preparing

the RMP/ROD. These modifications corrected technical errors that were noted during review of the PRMP/FEIS and provided further clarification for some of the decisions.

Dated: May 10, 2004.

Terry A. Reed,

Field Manager, Winnemucca Field Office, Bureau of Land Management.
