Submitting applications is a collection-of-information under OMB control no. 1625–0016 (Formerly 2115–0054). The final rule that contained the provisions for applications was published in the **Federal Register** on February 4, 2004 (69 FR 5398), and is available electronically through the docket (USCG–2001–8825) Web site at <http://www.dms.dot.gov>. became effective on February 4, 2004, with the exception of § 67.147 and 67.179.

Fisheries of the Northeastern United States; Summer Flounder Recreational Fishery; Fishing Year 2004; New York Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS announces approval of conservation equivalent recreational management measures for summer flounder in New York for the remainder of 2004. This determination is based on a recommendation from the Summer

Flounder Board of the Atlantic States Marine Fisheries Commission.

DATES: Effective August 31, 2004.

FOR FURTHER INFORMATION CONTACT: Sarah McLaughlin, Fishery Policy Analyst, (978) 281-9279, fax (978) 281-9135.

SUPPLEMENTARY INFORMATION: The summer flounder conservation equivalency determination process is described in the preamble of the final rule to implement Framework Adjustment 2 to the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan (FMP) (66 FR 36208, July 11, 2001), and in the preamble to the proposed rule to implement the 2004 recreational management measures for summer flounder, scup, and black sea bass (69 FR 19805, April 14, 2004).

NMFS published a final rule in the **Federal Register** on July 13, 2004 (69 FR 41980), implementing recreational management measures for the summer flounder, scup, and black sea bass fisheries for 2004. Based on the recommendation of the Atlantic States Marine Fisheries Commission (Commission), for states other than New York, NMFS determined that the summer flounder recreational fishing measures proposed to be implemented by the states for 2004 were the conservation equivalent of the season, minimum size, and possession limit prescribed in §§ 648.102, 648.103, and 648.105(a), respectively. Pursuant to the regulation at § 648.107(a)(1), vessels subject to the Federal recreational summer flounder fishing measures and landing summer flounder in one of the states with an approved conservation equivalency program are not subject to the more restrictive Federal measures, pursuant to the provisions of § 648.4(b), and instead are subject to the recreational fishing measures implemented by the state in which they land. Pursuant to § 648.107(b), federally permitted vessels subject to the recreational summer flounder fishing measures and other recreational fishing

vessels, registered in states and subject to the Federal recreational summer flounder fishing measures, that land in New York were subject to the following precautionary default measures: An open season January 1 through December 31; a minimum size of 18 inches (45.7 cm) total length; and a possession limit of one fish. The precautionary default measures are defined as the measures that would achieve at least the overall required reduction in landings for each state.

The Commission has notified NMFS that, effective July 30, 2004, New York implemented emergency regulations that are the conservation equivalent of the season, minimum size, and possession limit prescribed in §§ 648.102, 648.103, and 648.105(a), respectively. With regard to New York, based on Commission approval of the state's emergency measures, NMFS announces a waiver of the permit condition at § 648.4(b), which requires federally permitted vessels to comply with the more restrictive management measures when state and Federal measures differ. Therefore, effective immediately, federally permitted charter/party vessels and recreational vessels fishing for summer flounder in the Exclusive Economic Zone (EEZ) and landing in New York are subject to the recreational management measures as implemented by New York, i.e., an 18-inch (45.7-cm) minimum size, a 3-fish possession limit, and an open season of May 15 through September 6. NMFS amends § 648.107(a) to indicate that the recreational management measures implemented by the States of Massachusetts through North Carolina have been determined to be the conservation equivalent of the season, minimum size, and possession limit prescribed in §§ 648.102, 648.103, and 648.105(a), respectively. The table below replaces Table 2 as published in the recreational management measures final rule on July 13, 2004 (69 FR 41980).
