Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

August 27, 2004.

Take notice that the following application has been filed with the Commission and is available for public inspection:

a. *Application Type*: Amendment of License.

b. *Project No.*: 2514–093.

c. *Date Filed*: July 27, 2004.

d. *Applicant*: Appalachian Power Company, Virginia.

e. *Name of Project*: Byllesby/Buck Project.

f. *Location*: The project is located on the New River in Carroll County, Virginia.

g. *Filed Pursuant to*: Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact*: Frank M. Simms, American Electric Power, P.O. Box 2021, Roanoke, VA 24022–2121

i. *FERC Contact*: Any questions on this notice should be addressed to Mr. Eric Gross at (202) 502–6213, or e-mail address: *eric.gross@ferc.gov*.

j. *Deadline for filing comments and or motions*: September 27, 2004.

k. *Description of Request*: In an April 15, 2004, order the Commission approved Appalachian Power Company’s (Appalachian) request for a temporary variance to their license to allow them to lower the reservoir at the Byllesby Development by up to 11 feet below the licensed minimum elevation. The variance was needed to perform routine maintenance on the spillway and tainter gates and was planned to occur from May 1 through October 15 in 2004 and 2005. In their July 27, 2004, filing Appalachian requests to revise the dates that the spillway and tainter gate

maintenance take place to July 25 through October 15 in 2004 and May 1 through October 15 in 2006. The reservoir will not be lowered in 2005.

l. *Locations of Applications*: A copy of the application is available for inspection and reproduction at the Commission in the Public Reference Room, located at 888 First Street, NE., Room 2A, Washington DC 20426, or by calling (202) 502–8371. This filing may also be viewed on the Commission’s Web site at *http://www.ferc.gov* using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register on-line at *http://www.ferc.gov/docs-filing/esubscription.asp* to be notified via email of new filings and issuances related to this or other pending projects. For assistance contact FERC Online Support at *FERCOnlineSupport@ferc.gov* or toll-free 1–866–208–3676, or for TTY, call (202) 502–8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission’s mailing list should so indicate by writing to the Secretary of the Commission (see items o below).

n. Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission’s Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents*—Any filings must bear in all capital letters the title “COMMENTS”, “PROTEST”, or “MOTION TO INTERVENE”, as applicable, and the Project Number of the particular application to which the filing refers. All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

p. *Agency Comments*—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be

obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency’s comments must also be sent to the Applicant’s representatives.

q. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission’s Web site at *http://www.ferc.gov* under the “e-Filing” link.

Magalie R. Salas,
Secretary.

Interconnection for Wind Energy and Other Alternative Technologies

[Docket No. PL04–15–000]; Standardization of Small Generator Interconnection Agreements and Procedures [Docket No. RM02–12–000]; Standardizing Generator Interconnection Agreements and Procedures; [Docket Nos. RM02–1–001, RM02–1–005]; Notice of Technical Conference

August 27, 2004.

Take notice that the Federal Energy Regulatory Commission will host a technical conference on Friday, September 24, 2004 to discuss issues raised by a petition for rulemaking submitted by the American Wind Energy Association (AWEA) related to the adoption of certain requirements for the interconnection of large wind generators. The conference will be held at the Commission’s Washington, DC headquarters, 888 First St., NE., 20426. The event is scheduled to begin at 10:30 a.m. and end at approximately 4:30 p.m. (e.s.t.) in the Commission Meeting Room, Room 2–C.

The goal of the technical conference is to discuss the technical requirements for the interconnection of large and small wind generators and other alternative technologies, and the need for creating specific requirements for their interconnection to the grid. These issues include the use of non-synchronous generator and other alternative technologies that respond differently to grid disturbances and may have different effects on the grid than large, synchronous generators. AWEA’s request for technical consideration is

contained in a filing it made on May 20, 2004 in Docket No. RM02-1-005.

The conference is open for the public to attend, and registration is not required; however, in-person attendees are asked to register for the conference on-line by close of business on Wednesday, September 22, 2004 at <http://www.ferc.gov/whats-new/registration/wind-0924-form.asp>.

Parties interested in speaking at the conference should file their requests to speak no later than close of business on September 10, 2004. An on-line form requesting to speak is available at: <http://www.ferc.gov/whats-new/registration/speaker-form.asp>.

Topics to be discussed at this conference may include: a discussion of the AWEA proposal; the impact of the proposal on issues of reliability; the specific requirements of small wind generators; and the technical and operational needs of other alternative technologies.

Transcripts of the conference will be available for a fee from Ace Reporting Company (202-347-3700 or 1-800-336-6646) on the next business day. They will be available for the public on the Commission's eLibrary system seven calendar days after FERC receives the transcript. Additionally, Capitol Connection offers the opportunity for remote listening and viewing of the conference. It is available for a fee, live over the Internet, by phone or via satellite. Persons interested in receiving the broadcast, or who need information on making arrangements should contact David Reininger or Julia Morelli at the Capitol Connection (703-993-3100) as soon as possible or visit the Capitol Connection Web site at <http://www.capitolconnection.gmu.edu> and click on "FERC."

For more information about the conference, please contact Bruce Poole at 202-502-8468 or at bruce.poole@ferc.gov.

Magalie R. Salas,
Secretary.

[Docket No. PL04-13-000]

Reliability Readiness Reviews; Notice of Technical Conference

August 27, 2004.

Take notice that the Federal Energy Regulatory Commission will host a

technical conference on Wednesday, September 29, 2004 to discuss Reliability Readiness Reviews that are being conducted by the North American Electric Reliability Council (NERC). The workshop will be held at the Commission's Washington, DC headquarters, 888 First St., NE, 20426. The workshop is scheduled to begin at 9 a.m. and end at approximately 12:30 p.m. (EST) in the Commission Meeting Room, Room 2-C. The Commissioners may attend and participate.

The goal of the technical conference is to offer a public progress report on the Reliability Readiness Reviews conducted by NERC, in which FERC staff participated, since the August 14, 2003 blackout. Audit reports are available on the NERC Web site. The conference will report on what these reviews reveal about the overall "readiness" of the nation's reliability coordinators and control areas, and the strengths and weaknesses of the review process as implemented to date. A draft agenda is included as Attachment A to this Notice. The final agenda will be made available at a later time.

The conference is open for the public to attend, and preregistration is not required. There will be no on-line registration established for this event; on-site attendees may simply attend on the day of the event.

Transcripts of the conference will be available for a fee from Ace Reporting Company (202-347-3700 or 1-800-336-6646) the next business day. They will be available for the public on the Commission's eLibrary system seven calendar days after FERC receives the transcript. Additionally, Capitol Connection offers the opportunity for remote listening and viewing of the conference. It is available for a fee, live over the Internet, by phone or via satellite. Persons interested in receiving the broadcast, or who need information on making arrangements should contact David Reininger or Julia Morelli at the Capitol Connection (703-993-3100) as soon as possible or visit the Capitol Connection Web site at <http://www.capitolconnection.gmu.edu> and click on "FERC."

For more information about the conference, please contact Donald Lekang at 202-502-8127, donald.lekang@ferc.gov or Sarah

McKinley at 202-502-8004, sarah.mckinley@ferc.gov.

Magalie R. Salas,
Secretary.

Attachment A

Reliability Readiness Reviews, September 29, 2004, Agenda

- 9 a.m.—Introductions
 - 9:15 a.m.—Reliability Assessment
 - Audit Results
 - Actual Grid Performance
 - 10 a.m.—Reliability/Capability Trends and Patterns
 - Tools
 - Strengths and weaknesses
 - Identifying and Institutionalizing Best Practices
 - 11 a.m.—The Audit Process
 - What Worked
 - What Didn't Work
 - What's Changing
 - 12 p.m.—Stakeholder and Audience Participation
 - 12:30 p.m.—Adjourn

Pacific Gas and Electric Company; Notice of Technical Conference

August 27, 2004.

Parties are invited to attend a technical conference in the above-referenced Pacific Gas and Electric Company (PG&E) proceedings on August 31-September 1, 2004, at Commission Headquarters, 888 First Street, NE., Washington, DC 20426. The technical conference will be held in Conference Room 3M4-A/B on both days. The August 31st technical conference will be held from 9 a.m. until 5 p.m. (e.s.t.). The September 1st technical conference will be held from 9 a.m. until 3 p.m. Arrangements have been made for parties to listen to the technical conference by telephone.

The purpose of the conference is to identify the issues raised in these proceedings, develop information for use by Commission staff in preparing an order on the merits, and to facilitate any possible settlements in these proceedings. The parties will discuss, among other things, the following issues related to the unexecuted agreements filed by PG&E in the above-referenced dockets: (1) The Parallel Operation Agreement between PG&E and Western
