

be disastrous regardless of whether a small carrier or a large carrier is involved. Prior to adoption of the call center rule, 47 CFR 25.284, MSS carriers had been exempt from the Commission's 911 and E911 regulations.

25. As mentioned, the *Second Report and Order* sets forth reporting and recordkeeping requirements in connection with implementation of the MSS emergency call center requirement. The first reporting requirement is a one-time filing that MSS carriers (those subject to the call center rule) must submit, electronically, prior to the effective date of the call center rule. This report would provide the Commission, the public, and the public safety community with valuable information concerning the carrier's plans to establish an emergency call center. Call center 911 service is a new form of 911 service, and the *Second Report and Order* also requires collection of call center data, including the number of calls received during a given period and the number of calls requiring forwarding to a public safety answering point (PSAP). To minimize burdens on MSS carriers, including small entities, the *Second Report and Order* requires that the annual call center data reports be filed electronically and that the deadline for submission be consistent with the deadline for satellite operators' annual satellite reports.

26. By tailoring its rules in this manner, the Commission seeks to fulfill its obligation of ensuring "a seamless, ubiquitous, and reliable end-to-end infrastructure for communications, including wireless communications, to meet the Nation's public safety and other communications needs."

F. Report to Congress

27. The Commission will send a copy of the *Second Report and Order*, including this FRFA, in a report to be sent to Congress pursuant to the Congressional Review Act. In addition, the Commission will send a copy of the *Second Report and Order*, including the FRFA, to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the *Second Report and Order* and FRFA (or summaries thereof) will also be published in the *Federal Register*. See 5 U.S.C. 604(b).

III. Ordering Clauses

28. *It is ordered*, that pursuant to sections 1, 4(i), 7, 10, 201, 202, 208, 214, 222(d)(4)(A)-(C), 222(f), 222(g), 222(h)(1)(A), 222(h)(4)-(5), 251(e)(3), 301, 303, 308, and 310 of the Communications Act of 1934, as

amended, 47 U.S.C. 151, 154(i), 157, 160, 201, 202, 208, 214, 222(d)(4)(A)-(C), 222(f), 222(g), 222(h)(1)(A), 222(h)(4)-(5), 251(e)(3), 301, 303, 308, 310, this *Second Report and Order* is hereby *adopted*.

29. *It is further ordered* that the rule changes set forth will become effective on February 14, 2005.

30. *It is further ordered* that, pursuant to 47 U.S.C. 155(c) and 47 CFR 0.261, the Chief of the International Bureau is delegated authority to prescribe and set forth procedures for the implementation of the provisions adopted herein.

31. *It is further ordered* that the Commission's Office of Consumer and Government Affairs, Reference Information Center, shall send a copy of this *Second Report and Order*, including the Final Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

■ For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 25 as follows:

PART 25—SATELLITE COMMUNICATIONS

■ 1. The authority citation for part 25 continues to read as follows:

Authority: 47 U.S.C. 701-744. Interprets or applies Sections 4, 301, 302, 303, 307, 309, and 332 of the Communications Act, as amended, 47 U.S.C. Sections 154, 301, 302, 303, 307, 309, 332, unless otherwise noted.

■ 2. Redesignate the text of § 25.284 as § 25.284(a), and add new paragraph (b), to read as follows:

§ 25.284 Emergency Call Center Service.

(a) * * *

(b) Beginning February 11, 2005, each mobile satellite service carrier that is subject to the provisions of paragraph (a) of this section must maintain records of all 911 calls received at its emergency call center. Beginning October 15, 2005, and on each following October 15, mobile satellite service carriers providing service in the 1.6/2.4 GHz and 2 GHz bands must submit a report to the Commission regarding their call center data, current as of September 30 of that year. Beginning June 30, 2006, and on each following June 30, mobile satellite service carriers providing service in

bands other than 1.6/2.4 GHz and 2 GHz must submit a report to the Commission regarding their call center data, current as of May 31 of that year. These reports must include, at a minimum, the following:

(1) The name and address of the carrier, the address of the carrier's emergency call center, and emergency call center contact information;

(2) The aggregate number of calls received by the call center each month during the relevant reporting period;

(3) An indication of how many calls received by the call center each month during the relevant reporting period required forwarding to a public safety answering point and how many did not require forwarding to a public safety answering point.

Hazardous Materials Regulations: Minor Editorial Corrections and Clarifications

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Final rule.

SUMMARY: This final rule corrects editorial errors, makes minor regulatory changes and, in response to requests for clarification, improves the clarity of certain provisions in the Hazardous Materials Regulations (HMR). The intended effect of this rule is to enhance the accuracy and reduce misunderstandings of the regulations. The amendments contained in this rule are minor changes and do not impose new requirements.

DATES: *Effective date:* October 1, 2004.

FOR FURTHER INFORMATION CONTACT: Darral Relerford, Office of Hazardous Materials Standards, (202) 366-8553, Research and Special Programs Administration, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590-0001.

SUPPLEMENTARY INFORMATION:

I. Background

The Research and Special Programs Administration (RSPA, we) annually

reviews the Hazardous Materials Regulations (HMR; 49 CFR parts 171–180) to identify errors that may confuse readers. Inaccuracies corrected in this final rule include typographical and printing errors, incorrect references to regulations in the CFR, inconsistent use of terminology, and misstatements of certain regulatory requirements. In addition, we are making certain other changes to improve the clarity of certain HMR requirements.

Because these amendments do not impose new requirements, notice and public procedure are unnecessary. In addition, making these amendments effective without the customary 30-day delay following publication will allow the changes to appear in the next revision of 49 CFR.

The following is a section-by-section summary of the amendments made under this final rule. It does not discuss all minor editorial corrections (for example, punctuation errors) and certain other minor adjustments to enhance the clarity of the HMR.

II. Section-by-Section Review

Part 106

Section 106.70. In paragraph (b), in the first sentence, the wording “on you which are commenting” is revised to read “on which you are commenting.”

Part 107

Section 107.219. In paragraph (c), we are removing an obsolete reference to § 107.201(c).

Appendix A to Subpart D of Part 107: In Appendix A to subpart D of part 107, in the List of Frequently Cited Violations in Part II, under the heading “General Requirements” under “B. Training requirements:” entry 2. b., we are updating the Baseline assessment from “\$250” to read “\$275”. Also under the heading “Offeror Requirements—All hazardous materials,” under “D. Package Marking Requirements,” we are correcting the section reference “§ 172.303(a)(4)” to read “§ 172.304(a)(4)” in entry 8.

Part 171

Section 171.6. In paragraph (b)(2), the table of OMB control numbers is revised to reflect current affected sections for OMB Control Number 2137–0557.

Part 172

Section 172.101 Hazardous Materials Table (HMT). We are amending the HMT to correct certain entries, as follows:

—For the entry “Detonators, non-electric, for blasting,” UN0455, in column (10A), the vessel stowage

location code “5” is corrected to read “05.”

—For the entry “*Etching acid, liquid, n.o.s., see Hydrofluoric acid, solution etc.,*” in Column (2), the word “*solution*” is corrected from Roman type to italics.

—For the entry “Gasoline,” 3, UN1203, in column (7), Special Provision “B101” is corrected to read “B1.”

—For the entry “*Methyl mercaptopropionaldehyde, see Thia-4-pentanal,*” in Column (2), the word “Thia-4-pentanal” is corrected to read “4-Thiapentanal.”

—For the entry “Perfumery Products, with flammable solvents,” UN1266, Packing Group II, in column (9A), the quantity limitation for passenger aircraft/rail is corrected to read “15 L.” This error appears in Docket No. RSPA–2004–18575 (HM–189X) effective October 1, 2004 (July 13, 2004; 69 FR 41967).

—For the entry “Self-reactive liquid type F, UN3229,” Column (1) is revised by reinstating the letter “G,” which was inadvertently omitted in a recent rulemaking published on June 22, 2004, under Docket No. RSPA 2003–13658 (HM–215E), “Response to Appeals and Corrections,” (69 FR 34604).

—For the entry “Wood preservatives, UN1306,” the proper shipping name is corrected to read, “Wood preservatives, liquid.” This error appears in Docket No. RSPA–2004–18575 (HM–189X).

Section 172.102. In paragraph (c)(7)(vi)(D)(3), we are correcting the spelling of the word “not.”

Section 172.202. In paragraph (a)(2), we are correcting the reference to the section number for the Hazardous Materials Table. In paragraph (a)(2)(ii), we are correcting a proper shipping name by adding “n.o.s.” to “Combustible liquid.”

Section 172.512. In paragraphs (a)(3) and (b)(3), we are correcting section references.

Part 173

Section 173.32. In paragraph (c)(3), in the second sentence, we are correcting the reference “§ 178.275(f)(4)” to read “§ 178.275(f)(1).”

Section 173.61. In paragraph (c), we are correcting the ID number “NA 0350” to read “UN 0350.”

Section 173.133. Paragraphs (b)(1)(i) and (iii), in the formula, we are correcting “LC50_i” to read “LC_{50i}” and “LC_{50i}” to read “LC_{50i}.”

Section 173.185. Paragraphs (g)(2) and (j) are corrected to provide the correct section reference.

Section 173.225. In the Organic Peroxide Table, for the entry “tert-Butyl peroxyneodecanoate [as a stable dispersion in water],” UN3117, ≤52, under column (6), “Packing method” we are removing “, IBC” which is an error. Section 173.225(b)(6) states that the designation “IBC” means that Special Provision IB52 in the Hazardous Material Table in § 172.102 applies. Special Provision IB52 does not list “UN3117” as an authorized hazardous material for transport in an IBC. An IBC, however, may be authorized for this hazardous material when approved by the Associate Administrator as stated in § 172.102(c)(4).

Section 173.315. In paragraph (j)(3), in the last sentence, we are correcting the reference “§ 177.834(g)” to read “§ 177.834(a).”

Section 173.316. In paragraph (b), we are making a minor editorial revision and correcting the reference “§ 173.34(d)” to read “§ 173.301(f).”

Part 178

Section 178.68. In paragraph (i)(2), in the first sentence, we are correcting the reference “(i)(1)(i)” to read “(i)(1).”

Section 178.276. In paragraph (f), we are correcting the section reference “§ 178.275(h)” to read “§ 178.275(i).”

Section 178.358–5. In paragraph (c), we are correcting the parenthetical phase “(incorporated by reference; see § 171.1 of this subchapter)” to read “(IBR, see § 171.7 of this subchapter).”

Section 178.609. We are revising the wording in paragraphs (d)(1) and (2) to clarify test requirements for infectious substances packagings.

Section 178.707. In paragraph (c)(3)(iv), in the first sentence, we are correcting the wording “INCs” to read “IBCs.”

Part 179

Section 179.200–16. In paragraph (e), in the last sentence, we are correcting the section reference “§ 179.201–1(a)” to read “§ 179.201–1.”

Section 179.220–17. In paragraph (e), in the last sentence, we are correcting the section reference “§ 179.221–1(a)” to read “§ 179.221–1.”

Section 179.300–1. We are revising the section heading to remove an obsolete reference to § 179.302.

Part 180

Section 180.403. In the definition for “Replacement of a barrel,” we are correcting the section reference “§ 178.337–1” to read “§ 178.320.”

Section 180.417. Paragraph (b)(1)(v) is duplicative of the requirement in paragraph (b)(2)(v). Therefore, we are removing paragraph (b)(1)(v) and

redesignating paragraph (b)(2)(v) as paragraph (b)(1)(v). Paragraph (b)(2)(v) is being reserved.

III. Rulemaking Analyses and Notices

A. Executive Order 12866 and DOT Regulatory Policies and Procedures

This final rule is not considered a significant regulatory action under section 3(f) of Executive Order 12866 and, therefore, was not reviewed by the Office of Management and Budget. This rule is not significant under the Regulatory Policies and Procedures of the Department of Transportation (44 FR 11034). Because there is no economic impact of this rule, preparation of a regulatory impact analysis is not warranted.

B. Executive Order 13132

This final rule has been analyzed in accordance with the principles and criteria in Executive Order 13132 ("Federalism"). This final rule does not adopt any regulation that: (1) Has substantial direct effects on the States, the relationship between the national government and the States, or the distribution of power and responsibilities among the various levels of government; (2) imposes substantial direct compliance costs on State and local governments; or (3) preempts state law.

RSPA is not aware of any State, local, or Indian tribe requirements that would be preempted by correcting editorial errors and making minor regulatory changes. This final rule does not have sufficient federalism impacts to warrant the preparation of a federalism assessment.

C. Executive Order 13175

This rule has been analyzed in accordance with the principles and criteria contained in Executive Order 13175 ("Consultation and Coordination with Indian Tribal Governments"). Because this rule does not have tribal implications and does not impose substantial direct compliance costs, the funding and consultation requirements of Executive Order 13175 do not apply.

D. Regulatory Flexibility Act

I certify that this final rule will not have a significant economic impact on a substantial number of small entities. This rule makes minor regulatory changes which will not impose any new requirements on persons subject to the HMR; thus, there are no direct or indirect adverse economic impacts for

small units of government, businesses or other organizations.

E. Unfunded Mandates Reform Act of 1995

This rule does not impose unfunded mandates under the Unfunded Mandates Reform Act of 1995. It does not result in costs of \$120.7 million or more to either State, local, or tribal governments, in the aggregate, or to the private sector, and is the least burdensome alternative that achieves the objective of the rule.

F. Paperwork Reduction Act

There are no new information collection requirements in this final rule.

G. Regulation Identifier Number (RIN)

A regulation identifier number (RIN) is assigned to each regulatory action listed in the Unified Agenda of Federal Regulations. The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. The RIN number contained in the heading of this document can be used to cross-reference this action with the Unified Agenda.

Fisheries Off West Coast States and in the Western Pacific; West Coast Salmon Fisheries; Inseason Action #10 - Adjustments of the Recreational Fishery from the U.S.-Canada Border to Cape Falcon, Oregon

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Modification of fishing seasons; request for comments.

SUMMARY: NMFS announces two regulatory modifications, and a reallocation of the coho quota, in the recreational fishery from the U.S.-Canada Border to Cape Falcon, OR. Effective Friday, August 13, 2004, regulations for the area from Cape Alava, WA to Cape Falcon, OR (La Push, Westport, and Columbia River Subareas) were modified to have a minimum size limit for chinook of 24 inches (61.0 cm) total length; and for the area from Cape Alava to Queets River, WA (La Push Subarea) the daily bag limit was modified to: “all salmon, two fish per day, and all retained coho must have a healed adipose fin clip,” thus allowing for the retention of two chinook per day. In addition, 40,000 coho were reallocated from Queets River to Leadbetter Point, WA (Westport Subarea) quota, by transferring the coho on an impact neutral basis, to the coho quota in the subarea from the U.S.-Canada Border to Cape Alava, WA (Neah Bay Subarea), which increased the Neah Bay quota by 6,600 coho. These actions were necessary to conform to the 2004 management goals. The intended effect of these actions was to allow the fishery to operate within the seasons and quotas specified in the 2004 annual management measures.

DATES: Effective 0001 hours local time (l.t.), August 13, 2004, until the chinook quota or coho quota are taken, or 2359 hours l.t., September 30, 2004, which

ever is earlier; after which the fishery will remain closed until opened through an additional inseason action for the west coast salmon fisheries, which will be published in the **Federal Register**, or until the effective date of the next scheduled open period announced in the 2005 annual management measures. Comments will be accepted through September 22, 2004.

ADDRESSES: Comments on these actions must be mailed to D. Robert Lohn, Regional Administrator, Northwest Region, NMFS, NOAA, 7600 Sand Point Way N.E., Bldg. 1, Seattle, WA 98115–0070; or faxed to 206–526–6376; or Rod McInnis, Regional Administrator, Southwest Region, NMFS, NOAA, 501 W. SUPPLEMENTARY INFORMATION: The NMFS Regional Administrator (RA) has adjusted the recreational fishery from the U.S.-Canada Border to Cape Falcon, OR with two regulatory modifications, and also reallocated the coho quota among two subareas. Effective Friday, August 13, 2004, regulations in the area from Cape Alava, WA to Cape Falcon, OR, (La Push, Westport, and Columbia River Subareas) were modified to have a minimum size limit for chinook of 24 inches (61.0 cm) total length; and for the area from Cape Alava to Queets River, WA (La Push Subarea) the daily bag limit was modified to: “all salmon, two fish per day, and all retained coho must have a healed adipose fin clip,” thus allowing for the retention of two chinook per day. In addition, 40,000 coho were reallocated from Queets River to Leadbetter Point, WA (Westport Subarea) quota, by transferring the coho on an impact neutral basis, to the coho quota in the subarea from the U.S.-Canada Border to Cape Alava, WA (Neah Bay Subarea), which increased the Neah Bay quota by 6,600 coho. On August 13, 2004, the Regional Administrator had determined the available catch and effort data indicated that the catch was less than anticipated
