

If a default is not quickly remedied, OCC will likely suspend the defaulting clearing member. However, OCC believes that it should not have to make the decision to suspend as a precondition to borrowing against the clearing fund. Similarly, OCC believes that it should not be a precondition to such use of the clearing fund that OCC is unable to obtain "prompt" delivery of, or convert "promptly" to cash, any asset credited to an account of a defaulting clearing member. OCC interprets "prompt" and "promptly" in this context as meaning "in sufficient time to enable OCC to use the proceeds to meet its obligations." However, OCC does not believe that its ability to such use of the clearing fund should turn on questions of interpretation.

Accordingly, OCC is proposing to amend Article VIII, Section 5(e) of its By-Laws to eliminate the requirements that OCC (i) suspend a defaulting clearing member and (ii) be unable to obtain prompt delivery of collateral or be unable to convert it promptly to cash as preconditions to use of the clearing fund. As amended, Section 5(e) would allow OCC to use clearing fund assets as collateral for loans whenever OCC deems such borrowings to be necessary or advisable in order to meet obligations arising out of the default or suspension of a clearing member or any action taken by OCC in connection therewith.

OCC believes that the proposed rule change is consistent with Section 17A of the Act and the regulations thereunder because it enhances OCC's ability to respond to and manage clearing member defaults in a manner that increases the protection of investors and persons facilitating transactions by and acting on behalf of investors and because it limits systematic risk.
