

The proposed consent order contains provisions designed to prevent the respondents from engaging in similar acts and practices in the future.

Part I.A. of the order prohibits the respondents from misrepresenting the extent to which InternetALERT or any other software product or service that is marketed as enhancing security will reduce the risk of unauthorized access into a computer. Part I.B. also prohibits the respondents from misrepresenting the extent which any such product or service will maintain, protect, or provide security features that will enhance the security or privacy of any computer, or any data that is stored in a computer, including personally identifiable information.

Part II prohibits the respondents from making any misrepresentations concerning the performance, benefits, or efficacy of any computer software product or service that is marketed as enhancing security or privacy.

Part III of the order requires respondents to pay refunds to current InternetALERT subscribers who opt to cancel their subscriptions. Subscribers who cancel their subscriptions will receive from the respondents a refund that represents the unused portion of their InternetALERT subscription.

Part IV of the proposed order would require respondents to notify their retailers, affiliates, and similar third parties that advertise, promote, or sell InternetALERT to discontinue making any of the claims prohibited by the order.

Parts V through IX of the order require respondents to keep copies of relevant advertisements and materials substantiating the claims made in the advertisements; to provide copies of the order to certain of their current and future personnel; to notify the Commission of changes in corporate structure; and to file compliance reports with the Commission. Part X provides that the order will terminate after twenty (20) years under certain circumstances.

The purpose of this analysis is to facilitate public comment on the proposed order, and it is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

By direction of the Commission.

Donald S. Clark,

Secretary.

The SF 94 is an essential part of the investigation of motor vehicle accidents, especially those involving the public with a potential for claims against the United States. Individuals, other than the vehicle operator, who witness the accident, complete the form. Use of the SF 94 is prescribed in FMR 102-34.300(b) and Federal Property Management Regulations 101-39.40(b).
