SUPPLEMENTARY INFORMATION:

A. Purpose

The Affidavit of Individual Surety (Standard Form (SF) 28) is used by all executive agencies, including the Department of Defense, to obtain information from individuals wishing to serve as sureties to Government bonds. To qualify as a surety on a Government bond, the individual must show a net worth not less than the penal amount of the bond on the SF 28. It is an elective decision on the part of the maker to use individual sureties instead of other available sources of surety or sureties for Government bonds. We are not aware if other formats exist for the collection of this information.

The information on SF 28 is used to assist the contracting officer in determining the acceptability of individuals proposed as sureties.

SUPPLEMENTARY INFORMATION:

A. Purpose

United States laws impose duties on foreign supplies imported into the customs territory of the United States. Certain exemptions from these duties are available to Government agencies. These exemptions are used whenever the anticipated savings outweigh the administrative costs associated with processing required documentation. When a Government contractor purchases foreign supplies, it must notify the contracting officer to determine whether the supplies should be duty-free. In addition, all shipping documents and containers must specify certain information to assure the duty-free entry of the supplies.

The contracting officer analyzes the information submitted by the contractor to determine whether or not supplies should enter the country duty-free. The information, the contracting officer's determination, and the U.S. Customs forms are placed in the contract file.
